AFGHANS MARCH ARMY AGAINST BRITISH INDIA

MOSLEM FANATICS ARRAY THEMSELVES ON SIDE OF THE TURKS

Berlin, Nov. 6 (by wireless)—A report received here from Constantinople says that the Ameer of Afghanistan has sent an army of 170,000 men with 135 guns to the Indian frontier. This news was given out in official quarters in Berlin today to the press.

The railroad from Herat to Kushk has been destroyed.

A number of Indian border tribes have joined the Afghans.

British officials on the border have been arrested and several of their number have been killed.

Turks Advance On Egypt

Berlin, Nov. 6 (via wireless)—An advance of Turkish troops in the Sinai peninsula, in the direction of Egypt, is reported in Berlin from Switzerland. The Turkish army operating against Egypt is said to number a quarter of a million men. This news was given officially to the press in Berlin today.

Hard Fighting In Northwest

Berlin, Nov. 6—News given out officially for the press today says that the hard fighting in the northwest continues but it is as yet without result. The Germans, however, have been able to make slow advances at several points from Ypres inland.

The clash in Poland, which has been expected for several days past, has not yet developed. One reason is that the condition of the roads make rapid movements impossible. The cold weather is now making some improvements in this regard.

No exact information as to the positions of the tentonic allies is available.

The Russians are undoubtedly in superior force, a condition the allies are seeking to overcome by advantages in position.

The improvement in the situation on the southwestern front is shown by orders to reopen in parts of Alsace schools which had been closed owing to the danger of invasion.

Now Up To Carranza Whether Peace Palm Waves Over Mexico

El Paso, Tex., Nov. 6—The Carranza troops have retired before an advance of 10,000 Villa soldiers after fighting twenty miles south of Aguas Calientes, according to an official Villa report today. General Leon commanded the Carranza forces.

Washington, Nov. 6. General Villa has formally notified the national convention at Aguas Calientes of his willingness to resign command of his troops and retire to private life if that is necessary to bring about the elimination of General Carranza.

Washington, Nov. 6.—The convention, according to official reports received today received Villa's communication with a tumult of applause. No action was taken on it, pending the report of a commission which went to Puebla to notify Carranza of the selection of General Gutierrez as provisional president.

Villa's statement is in answer to the stipulations of General Carranza that with his own retirement, Villa and Zapata should be eliminated from military authority. According to reports to American Consul Silliman, assistance by Carranza of the convention orders will depend on the attitude of General Pablo Gonzales, commander of the division of the east. He is at Queretaro with several thousand troops and advices are that he will remain loyal to Carranza.

Seven thousand Villa troops were ordered to Aguas Calientes by the convention to guard the city, according to today's dispatches, when General Gonzales had assumed a threatening attitude at his headquarters a hundred miles south of Aguas Calientes. Thereupon the delegates telegraphed Villa to send a force to defend the city against attack. No fighting had taken place when today's report was dispatched, both sides awaiting the outcome of the conferences at Puebla.

Guiterres has stated to American agents that as soon as he is sworn in as provisional president he will issue the proclamation giving the guarantees desired by the United States before withdrawing its forces from Vera Cruz. Villa has agreed to support Guiterrez in enforcing the proclamation Carranza declines to issue.

STATE LICENSE BOARD PREPARES TO CARRY OUT HOME RULE LAW

Columbus, Nov. 6.—A flood of applicants of appointment as liquor licensing officials in counties now dry but which will be wet after December 3, when the new home rule amendment goes into effect, descending upon the state liquor licensing commission today. At the same time the announcement was made that no appointment would be made for at least 30 days and doubt was expressed whether they would be completed within sixty days. Saloons may not open in any county made wet automatically until license officials are appointed.

Word reached the state headquarters from the anti-saloon league of scores of dry townships and municipalities in which elections will be called under the Beal local option law, to insure that they remain dry despite the home rule amendment.

Secretary of State Graves gave out an opinion that the home rule amendment does not nullify the Beal law, which provides for elec-

Holy War Decree

Berlin, Nov. 6 by wireless—According to information given out in official quarters today to the press, the Sheik-Ul-Islam, the chief ecclesiastical dignitary of Mohammedism in Turkey, has issued a decree in complete saying that in the fighting with Russia, England and France the duty of every Mussulman is to his faith. This decree has been spreading throughout the Mohammedian world and announced to the pilgrims at Mecca.

Seattle, Washington, Nov. 6.—The steamship Senator, which arrived from Nome, Alaska, yesterday, brought $300,000 in gold bullion.

Repatriate Canal Unemployed; Free Passes To Country

Washington, Nov. 6.—The rapidly approaching completion of the Panama Canal and the consequent reduction of the force of employes has caused Colonel Goethals to repatriate numbers of these men thus thrown out of employment. Notices have been posted that the Panama Canal government will furnish free transportation to limited numbers of West India former employes to their homes and today about 3,400 repatriation passes have been issued.

While the government's obligation to return laborers to their home countries was originally limited to those brought to the canal work under contract, it has been extended to include laborers who migrated to the isthmus on their own responsibility, but who could show a period of service equal to that stipulated in the contracts. Now, principally as a police measure for the prevention of vagrancy, free transportation is being offered to practically all employes out of work and the republic of Panama is excluding further immigrants likely to become public charges.

OVERMYER CLAIMS HE IS ELECTED

Fremont, O., Nov. 6.—Arthur W. Overmyer, democrat of Fremont, claims he is elected to congress from the 13th Ohio district by a plurality of 74 over Charles S. Hatfield, republican of Bowling Green. Figures compiled by Overmyer today show the following pluralities: For Overmyer, Seneca 1078; Sandusky, 1191; Erie 278. For Hatfield Huron 1020; Wood 1453.

2,000 New Saloons

Columbus, Ohio, Nov. 6.—Wayne B. Wheeler, leader of the drys, estimates that 2000 saloons will be opened in the 40 counties that become wet under the Home Rule amendment. The licenses for these will cost $2,000,000, and they will bring $600,000 new revenue into the state treasury.

RELIEF SHIP CHARTERED

Philadelphia, Nov. 6.—The Norwegian steamship Thelma has been chartered to convey a cargo of foodstuffs and other necessities from this city to the sufferers from the effects of the war in Europe, according to an announcement made here last night. The vessel is expected to sail next week for Rotterdam with a cargo of 2,100 tons. The Philadelphia Belgian relief committee will also ship a large consignment of provisions on the steamer which will sail next week.

Gold Ship Convoyed To Boston

Bar Harbor, Maine, Nov. 6.—The three months' stay here of the interned North German Lloyd line steamer Kron Prinzessin Cecilie ended today when, convoyed by the United States destroyers Terry and Lamson, she started for Boston. The ruther was fair with a moderate breeze, when the steamer with on destroyer a short distance ahead and the other close astern, departed at 4 a. m. It was expected that she will reach Boston late in the afternoon. The change in the port of internment was made because it was considered that the anchorage here would be dangerous during the winter storms. Although it was intended to steam within the three mile limit so far as possible no interference was anticipated, as the governments at war with Germany had given official assurance that none of their war vessels would molest the steamer on her voyage to Boston.

Pittsburg Cannot Ship Glass Because Of Cattle Quarantine

Pittsburg, Pa., Nov. 6.—Many thousands of dollars worth of manufactured glass is being held in Pittsburg warehouses because the quarantine imposed by the federal government in the endeavor to stamp out the foot and mouth disease.

Glass is packed for shipments in hay or straw, and as these are included in the quarantine regulations, manufacturers are unable to obtain supplies in which to pack glassware. Even window glass and plate glass are affected.

GERMAN ARMY MAKES ANOTHER EFFORT TO BLAST ITS WAY TO SEA

London, Nov. 6 (10:20 a. —What has now become another well defined stage of the battle in West Flanders, that is to say a second concerted attempt of the Germany army to blast its way through to the sea, was flaming and roaring from Nieuport to the French frontier today without definite result so far on either side.

The area near the coast formerly held by the extreme German right and from which the invaders were forced by the allies after many days of hard fighting, is held only by dead, dying and wounded, the inundation having made the vicinity uninhabitable for the living and having prevented an advance of the British, French and Belgian allies.

Hundreds of Germans left behind in the retreat doubtless will perish as many were marooned like driftwood on an American lowland in time of flood. Thousands more on both sides are yet to perish in the struggle now progressing, the outcome of which should decide whether the Germans are going to reach the French coast this winter.

Ldondon, Nov. 6. (10:20 a. m.)—The latest reports from the western battle front, reaching London from Dutch sources indicate that the Germans have retired from the Yser, but the fight-

BELGIAN STATEMENT

Havre, via uris, Nov. 6.—2:30 p. m.—The Belgian official communication given out here today says:

"The enemy is showing no activity on the Yser front, but several detachments with quick firing guns still occupy the left bank of the Yser near St. George and St. Uyvekenskerke.

"The Germans have placed numerous cannon, including all calibre on the Belgian frontier between Middlekerke and Zebrugge.

"On the Dixmuide-Bixschoote front the Anglo-French offensive movement continues. Violent German attacks in the direction of Bixschoote have been repulsed.

"Between Wytschaete and Messines the offensive ovement of the allies has progressed as far as the road joining these two towns."

Calif. Knocks State Wide And Elects Hi Johnson Governor

San Francisco, Nov. 6—Not only did the voters of California defeat state-wide prohibition on Tuesday by a majority that will probably reach 150,000, but they approved a measure designed to prevent a recrudescence of the prohibition movement within a period of 8 years. Amendment No. 47, which provides that there shall not be another vote on the liquor question in that time, was adopted, but by a much smaller majority.

The "red light" abatement measures appeared today to have gone down to defeat by a narrow margin, although there is still a possibility that the majority against it might be upset.

The proposed law prohibiting prize-fights had a margin of more than 20,000 votes on returns in hand with a number of Los Angeles precincts to hear from. Los Angeles gave this amendment its endorsement, while San Francisco registered its disapproval. The pluralities of Gov. Johnson, candidate to succeed himself, and James D. Phelan, Democratic aspirant to the United States senate, continues to day to mount upward. Phelan was more than 25,000 votes ahead of Representative Jos. R. Knowland, his Republican rival. Francis J. Heney, the progressive nominee, was 4,000 votes behind Knowland.

Nevada

Carson, Nev., Nov. 6—Returns from 188 precincts out of 246 in Nevada give for United States Senator: Newlands, D., 7,797; Platt, R., 7,685. This gives Newlands a lead of 122 votes with approximately 350 to hear from.

FIRING OFF DOVER

Dover, England, Nov. 6. (via London 1:44 p. m.)—Heavy firing was heard off Dover this morning. It could not be ascertained whether the artillery exchanges were on the Belgian coast or indicated a naval engagement in the North Sea.

I'm feelin' a lot better already. I thought last Tuesday night I never would but I am, an' if I keep on improvin at th' present rate I'll be ready in a week or so I go after 'em again. There's nothin' like a lickin' t' bring out a fellow's real qualities. I've heard it said that some folks are greater in defeat than victory but never knowed how true it wuz till recently. If th' blamed majority is bound t' rule let 'em rule. Here's one thing they don't know "beans" about—th' weather:

Ohio—Increasing cloudiness and warmer tonight. Saturday cloudy and warmer. Probably rain in north and central portions.

Kentucky—Fair and warmer tonight and Saturday.

PANAMA CANAL TRAFFIC NEARS 600,000 TONS

Washington, Nov. 6.—Two years experience has developed certain facts of great importance regarding the probable movements through the Panama Canal. Nearly 600,000 tons of cargo passed through the waterway from the opening up to October 15. Based on this traffic, one conclusion is reached that one-half of the canal's business has been traffic between the east and west coast of the United States conducted in American bottoms. This shipping would have been exempt from toll and the canal would have been deprived of 50 per cent of its revenue had not congress repealed the section of the Panama canal act exempting American shipping from such charges.

This purely American trade included manufactured goods of great variety which were carried on forty-nine American ships.

Next in volume and importance was the traffic between the eastern coast of the United States and the western coast of South America, including large quantities of nitrates from Chile and raw material generally from South America coming northward and manufactured goods from Europe and America passing southward. Sixteen vessels engaged in this trade during the months of which there been came northward with raw material.

The Pacific coast grain trade, including British Columbia, with Europe was carried in ten heavily laden vessels passing eastward while 8 vessels passed westward in ballast to return with grain cargoes.

Eight vessels made the passage with petroleum from the Atlantic seaboard and gulf of Mexico to China and Japan.

Finally the coal traffic between the middle Atlantic seaboard states and the pacific coast of North and South America showed a notable development, employing seven vessels carrying 31,515 tons of coal. It is understood that these will return with pacific coast cargoes.

Licensing Board Sits In Judgment At Distel Hearing

A partial hearing in the case of Louis M. Distel, East End saloonist, whose application for a saloon license was rejected because of an altercation at his place last week between the proprietor and John Maston, was held before the county licensing board Friday afternoon.

Owing to the absence of some of the witnesses for both sides, the case was continued until next Tuesday morning. The hearing, Friday afternoon was largely a re-hash of the hearing in police court last Monday morning when Distel was bound over to the court of common pleas under $1,-000 bond on a charge of assault. Distel was not represented by counsel at the hearing. Judge Sikes conducting the questioning.

ELMER JONES BUYS FINE SADDLE HORSE

Elmer Jones, the Gay street blacksmith, is now the proud possessor of Chester Black Hawk No. 1953, considered by horse lovers generally as the champion saddle stallion of southern Ohio, if not the entire state. He purchased the animal this week from County Treasurer M. J. Caldwell, proprietor of the Scioto Valley Stock Farm, near Wakefield.

Through this horse's veins flows the blue bloods of Kentucky's most famous horses, being a direct descendant of Vermont Black Hawk, and a grandson of Black Squirrel. His sister, Caroline, was shown here last fall at the Columbia theatre in motion pictures, while her monument, with that of General Castleman astride, adorns the entrance to Cherokee Park, Louisville, Ky.

Chester has been shown at the leading fairs in southern Ohio for the past four years, and was admired by all for his distinct gaits both under saddle and in harness.

Clothes Do Not Make the Man--

Most People Seem to Think They Do So You May as Well Dress Up....

Whether you are judged by the clothes you wear or not does not excuse you from going well dressed with well fitting clothes. No man can measure up to his highest standard of efficiency in the minds of others, who does not go well dressed, and who does not wear clothes that reflect good taste and refinement.

Competition among men is too strong now-a-days for any man to handicap himself in the race by wearing any other than clothes of good style.

We are judged oft times by a glance and a good-looking suit and overcoat create a very pleasing sensation to the vision of the one who does the judging.

Clothes do not have to be expensive but they should be stylish, well-fitting and neatly attractive.

It doesn't matter so much how much you spend for your clothes as where you purchase them. Stores have individuality the same as the garments they sell. To secure the best wearing and best appearing clothes go to the store whose stocks are in keeping with your idea of clothes supremacy, Andersons' store, for instance. Here we permit nothing but clothes that will pass every test to which you may submit them. The more you scrutinize them the stronger they show up. Every suit and overcoat must measure up to a high standard, or, we won't permit it in our stock. Come and let us show you.

TSING-TAU FORTS REMAIN INTACT

Tokio, Nov. 6.—Complete casualty lists containing the names of the killed and wounded to date in the operations around Tsing-Tau show that the British had two killed and eight wounded, their wounded including two majors and that the Japanese had two hundred killed and 877 wounded. The official communication issued by the government today states that the bombardment of Tsing-Tau continues. It also states that aeroplanes are dropping bombs and circulars into the besieged port. The circulars warn the inhabitants not to participate in the military operations in any way.

The Japanese general staff explains that the assault on the main positions around Tsing-Tau, the Iltis, Bismarck and Moltke forts, must be deferred until after the capture of the five forts south of the Haipo river where, behind strong defenses, the German artillery and infantry are making a determined stand. These five forts are 2,400 feet from the Japanese trenches.

tions on the saloon question in townships or municipalities. He declared also that the Beal law elections may be held in townships within 15 days after the filing with the county board of elections of a petition for the election signed by one-fourth of the electors in the township. In municipalities twenty days is required between the time of filing the petitions and the election.

The attorney-general's department ruled that such Beal law elections would be ineffective in maintaining a community dry if held before Dec. 3, the date when the amendment actually becomes effective. It was said at dry headquarters that this would not delay elections, however, since petitions calling an election could not be prepared and filed conveniently within the next 10 days.

After conferring with Governor Cox today, J. H. Secrest, chairman of the state liquor licensing commission announced the commission would start immediately to prepare for carrying out the provisions of the home rule amendment, but would not act hurriedly.

WHEELER ISSUES STATEMENT

Columbus, Nov. 6.—In a statement issued today Wayne B. Wheeler, state superintendent of the anti saloon league, intimated that liquor interests of Cincinnati, Toledo "and some other wet cities" will attempt to have their respective city councils repeal Sunday and midnight closing, and sale to minors, ordinances. Wheeler also indicated that dry forces may back legislation by which no saloon may receive a license when a majority of voters in any ward, precinct or other subdivision file a protest against it.

Mr. Wheeler's statement follows:

"Inasmuch as the wets have claimed their amendment did not repeal the Sunday closing law and other state prohibitory laws, they will face a very embarrassing situation if the saloons are allowed to open on Sunday, or violate the other laws referred to. For those reasons the attempt to nullify these laws may be delayed in all cities where the city council has passed ordinances prohibiting the sale on Sunday, to minors and drunkards and these ordinances will remain in full force and effect.

"It is only the state laws relating to this subject matter that are in jeopardy.

"In Cincinnati, Toledo and some other wet cities, the liquor interests can go before the councils to repeal those ordinances as soon as they think it is safe to do so. The dry forces, on the other hand, can have prohibition submitted in 1915, or any other year thereafter, if they desire to do so. In this way they can keep on educating the public sentiment until they win. They claim that victory is only a question of time.

"They can also change the limit in the license law concerning the prohibition of saloons making it one to a thousand, or even two thousand of population. They can also change the law so that saloons can receive a license where a majority of the electors in any ward, or precinct or subdivision file a protest against it. These and other regulations are still left in the hands of the general assembly.

"The outlook for prohibition was never brighter. Five states have prohibition and liquor traffic within 45 days and a number of other states will prohibit the saloons within the next year. Ohio faces a more difficult problem because of her large cities. It takes a little longer time to educate public sentiment in these centers of population.

"It can and will be done.

"The saloon is as detrimental to the people in the large cities as it is in the smaller cities and townships. It is only a question of time and work to get the average voter to see it. The fight will be pressed forward with renewed vigor until there is not a saloon or brewery in Ohio."

Emphatic denial was made at the anti-liberal headquarters today that the charges against election officials and politicians in Cincinnati "are trumped up."

"Let those who say we have nothing behind what they choose to call a 'Bluff' wait awhile and we will show them we know exactly what we are talking about", said an anti saloon league official. "There are plenty of officials in Cincinnati at this hour who are shaking in their shoes, because they know we have evidence against them.

"Evidence continues to accumulate showing irregularities and corrupt methods used to carry the home rule amendment and defeat prohibition. Cincinnati was the chief offender.

League officials declared they would push their demand for a recount of votes in Cincinnati in accordance with their protest filed with the Hamilton county board of elections yesterday.

FRENCH WAR STATEMENT

Paris, Nov. 5 (2:50 p. m.)—The French official announcement given out in Paris this afternoon says yesterday passed without any perceptible modification on the front. The fighting between Dixmude and the Lys continued without any marked advance or retirement.

The text of the communication follows:

"There was no perceptible modification, during the day of yesterday anywhere on the front. The fighting continued between Dixmude and the Lys with the same characteristics as previously and without any marked advance of retirement at any point. There was violent cannonading to the north of Arras, and also directed upon Arras, without result for the enemy.

"The German effort in Belgium and in the north of France continues. The Germans seem to have undertaken changes in the composition of their forces which are operating in this region, and are reinforcing their reserve corps with active troops with the idea of undertaking a new offensive movement, or at least to mitigate the bloody checks which have been inflicted upon them.

"Between the Somme and the Oise and betwten the Oise and the Meuse there have been minor actions. We have consolidated our advance on the village of Andechy to the west of Roye. A column of German wagons has been destroyed by the fire of our artillery, at long range."

FRIEDMANN'S CURE NIL

Washington, Nov. 6.—The seal of official disapproval has been placed upon the tuberculosis cure brought to this country in 1913 by Dr. Frederick F. Friedmann, of Berlin. The announcement was made today by the United States public health service in making public an abstract of the report of its investigations in hospital and laboratories where tests of the Friedmann cultures were made. It declares that conclusions of the American physicians are in line with previous reports both in this country and abroad, "which have refuted Dr. Friedmann's claim to the discovery of a specific cure for tuberculosis."

ANNEXATION OF EGYPT

Berlin, Nov. 6.—(Via The Hague and London)—The Frankfurter Zeitung publishes a despatch from its Constantinople correspondent who transmitted an interview with the Khedive of Egypt. The Khedive expressed himself as undisturbed by the British annexation of Egypt. The people of Egypt soon would recognize, the Khedive declared, that the situation created by the British could not continue, and the Britons soon would see that the annexation of the historic and holy territory of Egypt could be of only a temporary character.

GERMAN ARMY

(Continued From Page 1.)

ing is said still to be proceeding within the triangle of Ypres Dixmude and Roulers.

The latest official communication give evidence that the German assault are becoming less intense; and there are some indications of the resumptions of the offensive on the part of the allies with the Belgians reported as occupying both banks of the Yser and forcing the Germans in that neighborhood to retire on Bruges. In spite of these reports, however, there is no disposition among the allies to be over confident. Some hint of this feeling is found in the revived interest in London in the Russian military campaign. Many military critics are voicing the hope that the advance on the eastern German frontier will become such a menace that Berlin will be compelled to recall several seasoned corps from the western front to meet the new danger.

Turkey's Entry Not Feared

It is not believed here that Turkey's entrance into the field of combat will greatly effect the Russian campaign against the Teutonic allies. Russian has three army corps in the Russian caucasus, none of which has been drawn for service elsewhere in the war. Russia is reported successfully to have invaded Armenia with four army corps and the Turkish forces in that district are said to be to day much weaker than they have been for some weeks past. Russian troops are reported as already well across the Turkish border, and the fighting is proceeding along a battle front estimated from 100 to 150 miles.

Berlin reports little activity along the Russian border, and indications are not lacking that the German forces, having reached selected position along the River Warthe, are prepared to check the onrush of the Russian armies.

Russians Cross The San

Vienna admits that the Russians have crossed the river San, but the Austrian armies facing the Russian left wing evidently are still intact and in a position to maintain a stubborn defence.

England's warfare against Turkey is still naval and is likely so to remain until Turkey invades Egypt. Such a move the allies hope, will prove the final straw to induce Italy to embark her fortunes with the entente powers, Great Britain, France and Russia for the reason that such an invasion would be a direct menace to Italy's newly won African possessions.

France Formally Declares War

France now has formally declared war on Turkey and her advent may mean activity on the part of the allied fleet. War on the non-combatants among the alien enemies in the countries of the various belligerents has reached such an acute stage that both sides have virtually asked the diplomatic intervention of the United States. The police in the British Isles have lessened their activity in rounding up alien enemies because the military authorities are unable to supply quarters for their internment, but the sensational newspapers continue demanding that every German and Austrian in the country, including those formally naturalized be interned. The German press is equally demanding retaliation and both sides are making charges of the ill treatment of prisoners. It is in connection with this phase of the controversy that the United States has been requested to make investigations.

England, still without official news of the naval battle in the South Pacific, is consoling itself with the hope that the German reports of this engagement may prove exaggerated for the reason that the British diplomatic representatives in Chile cable that no evidence of the battle in the form of wreckage has been washed ashore.

He states that both are in the best possible health.

GALLANTRY OF TURCOS IN CHARGE IS COMMENDED BY KING ALBERT

Paris, Nov. 6.—In a dispatch dated at Furnes, West Flanders, Belgium, a correspondent of the Petit Parisien says:

"King Albert came here personally to congratulate a regiment of Turcos who retook the village of Ramscapelle last week from the Germans. Ramscapelle was of vital importance, it opened the way to Furnes and its possession by the Germans might be of disastrous consequences.

"Overwhelmed by number the Belgians holding it had been forced to fall back and it had to be recaptured at all costs. The French infantry attacked the town from two sides and at first were successful, but the enemy recaptured it. Three times the Germans were driven out and three times fought their way back. Then night fell, leaving them masters of the situation.

"A colonel of the Turcos told his men that the village must be taken immediately, it would be to late the next morning. The Turcos sprang to the attack with such fury that the Germans, seized by sudden panic, broke and fled. As the result of the loss of the village the enemy was forced to cross back over the Yser."

Cattle Disease Is Not Infectious Is Opinion Of Experts

(Chicago, Nov. 6. Statements assuring the public that foot and mouth disease, the malady that is raging among live stock in nine states, cannot infect humans through the eating of meat, was issued by officials of Chicago's large meat packing companies today:

"Meat eaters need have no fear from the disease," read a statement by J. Ogden Armour. "No particle of meat from an infected animal is used, even for soap, fertilizer or leather. Every such animal is shot and buried in quick lime at once. Government inspectors have examined carefully every bit of meat sold by packers and the vigilance has been doubly watchful for a week. The disease is detected quickly and there is not one chance for harm or deterioration to any meat sold."

"There would be no danger in eating meat from infected animals, even if it were used, unless the affected parts were brought in contact with dressed meat, according to a statement by Dr. Walter S. Haines, toxicologist, and member of the Illinois food commission.

"The quarantine placed on the Chicago Union Stock Yards by the federal and state officers will go into effect at the close of today's business.

The yards must remain closed for nine days, the government officials ordered, so all cattle cars, pens and other equipment with which infected animals are thought to have come in contact, can be thoroughly disinfected. A force of 1,000 men is employed in the process of fumigation.

COLORADO QUARANTINE

Denver, Nov. 6.—On account of the foot and mouth disease prevalent among live stock in the central and eastern states, Governor E. M. Ammons last night issued a proclamation quarantining any movement of cattle, sheep or swine from the territory east of the Missouri river, including all stock yards at Missouri river points, into the state of Colorado.

NEW YORK'S BEEF SUPPLY

New York, Nov. 6. At all freight stations in this city and New Jersey where incoming live stock is received inspectors have been on duty for several days to prevent cattle and other live stock infected with foot and mouth disease from entering this market.

It was estimated that New York has about one week's supply of beef on hand and increases in the price were to be expected unless shipments from western packing centers where the quarantine is not in effect come to the relief of the local market which has drawn largely from Chicago for its supply.

IOWA TO BE QUARANTINED

Washington, Nov. 6.—The department of agriculture was today preparing to quarantine the state of Iowa because discovery of foot and mouth disease at Parnell, Iowa. The quarantine order was prepared for issue late today.

Cases of diseased cattle at Como, Mississippi, are suspected of being the foot and mouth disease, are under investigation.

EAST ST. LOUIS TO CLOSE

East St. Louis, Ill., Nov. 6. The stock yards will be closed for fumigation for several days beginning tomorrow. An order to this effect was received from government officials today.

PITTSBURG TO CLOSE

Pittsburg, Pa., Nov. 6.—An announcement was made at the Herr's Island stock yards this [illegible] beginning tomorrow all live stock receipts. Only stock has been received from Pennsylvania points and from states not included in the quarantine. The principal effect of the order will be to shut off supplies from West Virginia for whose stock Pittsburgh is the largest market.

CINCINNATI DISTRICT CLEAR

Cincinnati, Nov. 6.—Chief City Food Inspector R. B. Blume, after an investigation of cattle on dairy and stock farms in Ohio, Kentucky and Indiana, within a 35-mile radius of Cincinnati, reported Friday that he is convinced that there is not a single case of foot and mouth disease in the Cincinnati district. Dr. Blume was assisted by Food Inspector J. Riesenberger in his investigation.

TWO STATES MORE

Washington, Nov. 6. Federal quarantine to check the spread of the foot and mouth disease were extended today over the states of Iowa and Massachusetts by Secretary Houston, of the department of agriculture.

ITCHED FOR 20 YEARS. RESINOL CURED IN 10 DAYS

Baltimore, Md.—"About twenty years ago both my legs began to itch from ankle to knee. Little pimples came out the itching and burning was something terrible. I would start to scratch and could not stop. I would even scratch through the skin and that of course would leave a sore which I was compelled to bandage.

"I tried several prescriptions and treatments, but received not a particle of benefit—no more than if the treatments were cold water. I then began to have very little faith in anything and of course could do nothing but scratch away.

"After suffering constantly for twenty years, a friend recommended Resinol Soap and Resinol Ointment. From the very first application, I found relief, and was entirely cured in ten days. The itching and stinging sensations have ceased and my skin is as smooth as a child's." (Signed) Charles Warner, 1123 N. Stricker St.

Every druggist sells Resinol Soap (25c.), and Ointment (50c. and $1).

GRAY HAIR BECOMES DARK, THICK, GLOSSY

Look years younger! Try Grandma's recipe of Sage and Sulphur and nobody will know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

RUSSIANS CHANGE CONSTANTINOPLE TO TZARGRAD

Rome, via London, Nov. 6—7:55 a. m.—The Tribuna publishes a Petrograd dispatch regarding the operations of the Russians in Armenia. It also says that the Russian newspapers refer to Constantinople by its old Slavonic name of Tzargrad. The dispatch follows:

"The Russians in Armenia are operating along a front of 100 miles. They entered Turkey by two points, one column towards Erzerum and the other striking southward. The Armenians everywhere welcomed the Russians, regarding the war as one of liberation. Several entire Turkish regiments have been taken prisoners.

"The name of Constantinople has been replaced in the Russian press by the old Slavonic name of Tzargrad.

"Emperor William's cousin, Count von Schwerin, died at Lodz from wounds received in an action near Sklerniewice."

GUN NOT NEW

The Hague, Via London, Nov. 6.—The famous German 42 centimeter gun which has been reported as a modern invention, appears to have been described in the German magazine Prometheus, in the year 1893. The article at the time gave the weight of the gun and the velocity and effects of the shots and this information was extensively quoted in scientific magazines issued during the same year.

WARNING WITH A HOLLOW SOUND.

The shadow of the hungry office seeker is already hanging over the editorial sanctum of Warren G. Harding, senator-elect from Ohio, and in his summing up of the election in the Marion Star Wednesday evening, Mr. Harding takes occasion to sound a note of warning to the noble pie hunters' brigade. He calls attention to the fact that Mr. Willis made many charges and promises of what he would do in the abolishment of places if elected and he insists that the people now expect him to keep his word and wipe out the commissions and offices that he denounced as useless. Mr. Harding says:

"Governor-Elect Willis has a tremendous task before him. It is well that he is loftily inspired, has good courage and a resolute will. Ohio will look to him for the fulfillment, and Republicans, in and out of the general assembly, must stand by him loyally. Having promised to redeem Ohio and return to simplicity and economy, the pledge must be kept, and the hunger of the placeseekers must not be allowed to interfere. We believe in Willis and are confident he will keep the faith and grow in the esteem of the people of Ohio."

If Mr. Willis can show to the people of the state that there are many useless officials and will abolish them, he will have made good his campaign charges and will further have the approval of all good citizens, as well as establishing his own sincerity in making the allegations of extravagance. Really though we do not have nor a hope that Willis will go far, if he ever gets started on this line of retrenchment. The most that we expect of him is that he will abolish some offices to get rid of Democrats, create new ones to take their places, fill the old offices under the new names with his own supporters, and then set out to try and fool the people who will continue paying the same old salaries to the same old number of office holders.

PAPER OCCUPIES NEW HOME

We note with much pleasure that the Coshocton Morning Tribune, published at Coshocton, has lately occupied a splendid new building erected by the company owning the paper. It is a most attractive structure, and, judging from description published in the House Warming edition of The Tribune, it is most admirably fitted for newspaper purposes. The Tribune has had a most remarkable growth from the date of its first issue only five years ago. In that time it has absorbed one of its rivals an evening paper, and this has left Coshocton with two papers one afternoon and one morning.

The Times congratulates the management of The Tribune upon its prosperity and upon its splendid home.

It used to be that newspapers, especially those in smaller cities, were housed in dark alleys or in dreary, gloomy, rattle trap structures, but with the growth and development of the commercial side of the business this has been changed. Today newspapers are generally as well housed and are conducted more generally along the same lines as other successful and legitimate enterprises.

We are shocked at the apparent rapaciousness of our Republican brethren. Here while the paeans of joy were still reverberating through the heavens, comes the Morning Star and picks out "Doc" Young for the seat now so satisfyingly filled by the Hon Adam. The Star had better look a little out Adam's typewriter survived the cataclysm.

We are interested in the future of that Home Rule amendment. From a distance we read and re-read many and various legal and lay opinions as to just what the blamed thing meant, and it all left us in a maze of doubt. Now we will see from experience just who was the lawyer and who was the pretty man.

Not being in the proper mood and not having any excuse for writing any "Thank God" editorials, we have decided also that for a man of our age and condition in life it would not be wise to indulge in any post mortems on the sad results of last Tuesday's election.

We very much fear that when the pie is handed out in this county those returning "lost sheep" will find that the same old crowd has usurped the best places at the table.

The weakest asset that a political leader has is an army of appointees, or a machine at his back.

The Democrats did not lose all Tuesday. They still have Adam.

The jacket is the popular three-quarter length and has a high Medici collar of gray velvet. The button of material to match the costume. Considerable attention was attracted by the wearers of these two costumes. The hat worn by each is of black velvet, trimmed with a wreath of roses.

J. S. VIOLET IS THANKFUL FOR SUPPORT

J. S. Violet, one of the defeated candidates for county commissioner of Scioto county was in the city Friday, feeling none the worse for the disappointing result of last Tuesday. Mr. Violet is especially gratified to find when the votes were counted out that he had run best where best known, and that in itself bespeaks volumes for his worth as a citizen. Mr. Violet stated that it would have been a miracle, almost for a democrat to have won in Scioto county last Tuesday, and the highly complimentary vote he received in certain quarters took all the sting out of defeat. He states that is still a loyal Democrat and that his successful opponents have his best wishes for a successful administration.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise care The Daily Times, Portsmouth, Ohio.

Dear Dolly.—You quote the old saying that "whistling girls and crowing hens always come to some bad end." What do you think of the new saying that "whistling girls and hens that crow will make their way wherever they go"?

RUTH'S MODERN KNIGHT.

P. S.—And how's this Dolly. "Better whistle than whine"?

It isn't necessary for a girl to whistle or whine either. Ruth, if she will just remember this little verse:

It's the songs you sing
And the smiles you wear
That make the sunshine
everywhere.

Dear Dolly—Is it all right for a girl to do things in order to get another girl's beau away from her if she likes him real well? I don't like the girl very well and would love to beat her time.

JEALOUS GIRL.

Such scheming is very unbecoming any girl. If girls would think less of trying to attract boys and more about becoming unselfish, friendly women, we should have a better world. The slogan should be "Women with Women," and not "Women Against Women", as it seems to be.

Dear Dolly.—Is it all right to have your fortune told by Gypsies? MYRTLE.

No. Gypsies know nothing about the future. No sensible person would do such a thing, unless it was for pure silliness.

Dear Dolly.—I saw a want ad in the paper the other day that I would like to answer. What should I say, when applying for the job?

THOMAS.

Just simply write the person advertising, saying that you believe you can meet the conditions stated in the advertisement and ask for an interview. If he cannot grant that, tell what are your qualifications for the place and ask for a trial. That's all you can do, Tommy.

Dear Miss Wise.—Is it the right thing for an engaged girl to go with other young men when her fiance is away?

ENGAGED GIRL.

That should be as the young people agree. If the young man is to be away for any length of time and the engagement has not been made public, there is no reason why either of them should turn recluse. Of course, she should not have any regular escort, but going with the young people of her set with different escorts would be perfectly proper, and he should have the same privilege.

Dear Miss Wise.—Is it proper to chew gum in company?

MARGUERITE.

No well bred person will chew gum in public, Marguerite.

Dear Dolly.—Please help me. I am a young man of 23 and was engaged to a girl whom I loved and always thought she cared for me. However, I learned to my sorrow that whenever I didn't call she would have another fellow. I objected to this and she got sore. Is there any way I can tell if she cares for me?

JOHNNY JUMPUP.

If your engagement had not been made public, you surely could not expect the girl to refuse to see callers, Johnny. A man can never expect to be happy with a woman he cannot trust. If she cared for you it would make her doubly indignant to be doubted by you. Ask permission to call and talk the matter over. Simply tell her how you feel towards her and why you were disturbed. If she cares for you she will be glad to forget the little spat you had. I hope you will soon marry and live happy ever afterwards.

Dear Dolly.—I have a cream serge jacket suit and would like to know if it can be successfully cleaned at home?

SUBSCRIBER.

It may be cleaned perfectly well with gasoline if you will use it freely, changing sponge and liquid frequently not to smear the fabric with grime which has collected upon the sponge. Have a new, clean sponge and plenty of gasoline. I cannot repeat too often the caution as to artificial light when one is using artificial. Do it in the day and have no fire in the room. It is then as safe as any other cleaner.

Dear Dolly.—I have been going with a young man for some time and last Sunday night he quit me for no apparent reason. He still treats me nice when I meet him. Do you think he cares for me any more? He is 19 and I am 17.

JILTED GIRL.

He evidently does not care for you or he would not have turned you down without a good reason. Probably the boy was "wise" enough to see that you had been going together long enough. It is very unwise for young people to keep regular company; at the age of 17 it is simply ridiculous. Speak pleasantly to him, and keep him for a friend by not running after him.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.

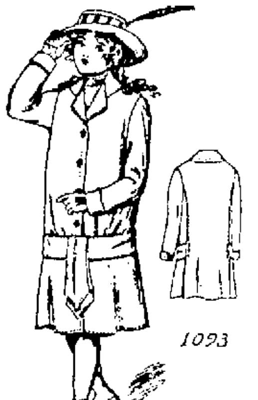

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results.

The veranda was decorated with corn-stalks and the guests were greeted at the door by a ghost. There were thirty-eight guests, who were attired in all sorts of costumes one could imagine, and they were well disguised. At nine o'clock the masques were removed and then came the surprise. The hostesses served delicious refreshments at the end of the pleasures.

TRY THIS IF YOU HAVE DANDRUFF

Or Are Bothered With Falling Hair or Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Hammel, Samuel Levi, A. Mayer, Samuel Horchow, Samuel Schloss, Dan Labold, Miss Matilda Goodman, Miss Esther Labold and the hostess, Mrs. Brown. Mrs. Horchow will be hostess at the next regular meeting. An evening card party will be given in the near future, when Miss Esther Labold and Mrs. Fred Strauss will be the hostesses.

Head Stopped Up? Can't Breathe? Try the New External Treatment

Applied in Salve Form Over Throat and Chest Relieves by Inhalation and Absorption.

Vapor treatments are best for all inflammation of the air passages. The vapors carry the medication direct to the inflamed surface without disturbing the stomach as do internal medicines. A cheap and very convenient vapor treatment is a good application of Vick's "Vap-O-Rub" Croup and Pneumonia Salve over the throat and chest, covered with a warm flannel cloth. The body heat releases vapors of Thymol, Eucalyptol, Menthol, Camphor, and Pine Tar, that are inhaled with every breath, through the air passages to the lungs. These vapors open the air passages, loosen the phlegm, and heal the raw surfaces. If the cold is in the chest, apply hot wet towels to open the pores. Vick's is then absorbed through the skin, taking out that tightness and soreness.

A little Vick's applied up the nostrils and over the temples is very beneficial for head colds and catarrh and will relieve most cases of headache and neuralgia. Vick's is also excellent for Asthma, Hay Fever, and Bronchial Troubles. Three sizes, at all dealers—25c, 50c, and $1.00.

Small, when the Republican administration is inaugurated next January, it was said in political circles here today. Moving Day Is Held Enemy Of American Home By Puritist

Kansas City, Mo., Nov. 6.—Moving day was depicted as one of the greatest foes of modern society and one of the cardinal reasons for divorce by John R. Hammond of Des Moines, Iowa, in an address before the International Purity Congress here today.

"The re-establishment of the American home is the only remedy for the social evil and the only hope of democracy," he said. "The constant shifting of families from one section to another prohibits the long acquaintance among young people through which proper life partner can be selected.

"Young people are thrown into contact with strangers, become bold and practice deceptions. As the result marriage frequently is contracted on a guess. The deceptions are discovered and lead to divorce courts and to often to immorality."

Mr. Hammond asserted "the constant diminution of home ownership among our people and the destruction of privacy of the family life is the greatest menace threatening our free institutions today."

"About 70 per cent of our people are actual tenants and dependent on speculators for the roofs which shelter them. Girls born and reared in tenements are easy marks for white slavers and not infrequently a widowed mother, ground down by the tenantry system is forced to sacrifice her virtue rather than her children. The restlessness of labor is due in a large measure to the lack of ownership of homes among our laboring men. With conditions as they are, working men are unable to own their homes. Go where you will, you will find the greatest degree of immorality and lawlessness where the homeless population is the greatest." As a remedy Mr. Hammond said he would exempt the homestead from taxation; put the burden of taxes on incomes and constructive ownership of property and re-establish a minimum of rent in tenements based on assessed valuation and graded on sanitation and conveniences.

Logical Dyspepsia Treatments

Importance of Eliminating Acidity and Food Fermentation

During the past two or three years reports have frequently appeared in the press concerning the remarkable value of bisurated magnesia as an antacid; and its ability to promote normal, healthy digestion by preventing food fermentation and neutralizing dangerous stomach acid has often been demonstrated. Until recently druggists could supply bisurated magnesia in powder form only, from one to two teaspoonfuls of which, taken in a little water after meals, almost instantly stops all fermentation and neutralizes acid, but sufferers from stomach trouble will be glad to learn that, after a long series of experiments, a leading firm of manufacturing druggists has now succeeded in producing a 5 grain tablet which combines all the valuable antacid properties of the ordinary bisurated magnesia in a very convenient form. This new tablet of bisurated magnesia can now be obtained of druggists everywhere and many physicians are already prescribing them instead of the powder form.

Rev. Pearl Hughes To Resign As Pastor

Rev. Freeman Chase, formerly pastor of the Hutchins Street Baptist church, gave the folks who attended the prayer meeting at the Baptist church Wednesday evening a very helpful message. At the close of the prayer services the officers of the church held a brief meeting and it is understood that they are considering extending a call to Rev. Chase to become their pastor.

The pastor, Rev. Pearl H. Hughes, gave out the information at the prayer meeting that he would tender his resignation Friday evening as he had accepted the call to become the director of religious and social work at the C. & O. R. R. Y. M. C. A. at Russell, Ky.

Rev. Hughes has had this place under consideration for several weeks and it was known to the officers of the church that he had thought of leaving but he did not decide until about ten days or two weeks ago.

The matter was talked of at the last business meeting but the officers decided not to act until they could call another pastor. It is now planned so that every service will be taken care of and the church will not be without a pastor at any time.

Rev. Hughes came to New Boston as pastor just thirteen months ago when the church was located in the old frame building on Oak street. Shortly after he came they left the old church and took up their home in their new church on Pine street. Rev. Hughes started his work in the new church. The attendance and interest in all the services increased, in fact more than doubled.

During the past year there has been quite a number added to the membership and the church is in a very good condition.

The people's interest in the church has decreased the church debt considerably during the past year and paid out more money for current expenses and building fund than was ever paid out in any one year of the past.

In addition to the regular work of the church and Sunday School, the church has now well under way, the building of a personage which will be completed within the next few months.

Rev. Hughes was in Y. M. C. A. work seven years previous to taking up a pastorate. He is going into the Y. M. C. A. work only temporarily. He was born in the hills of Pike county and spent his youth in this city, being a carrier boy for the Blade and Tribune. Later he took up the work of cutter in the shoe factory and from there he went to Meadly Bible Institute. He graduated from this institute in 1905.

The members of the church and many friends of Rev. Hughes will be sorry to see him leave. During his stay in the village he won many friends and while sorry to witness his departure extend him their best wishes.

MORE WHEELBARROW RIDES

It is now up to Clifford Chinn to perform or pay up. Some days before the election Chinn made a bet with Thurman Emory whereby Emory was to wheel him to Portsmouth in a wheelbarrow if Cox won as governor and if Willis won Chinn was to wheel Emory to the city or forfeit $5 put up as a guarantee that the bet would be carried out. A large crowd will be on hand to see the start of the trip which is scheduled for early Friday evening. Chinn is a clerk at the O. D. Chinn grocery while Emory is a carpenter.

The same kind of a bet was made between Ben Barringer and Grant Dixon. Barringer could not see anybody else but Cox and agreed to wheel Dixon in a wheelbarrow from the John Conley saloon on Gallia pike to Harrisonville pike and back if Cox lost. Dixon was to do the same if Willis lost. It is up to Barringer to do his part of the bet. He will have an easy job as there are cement sidewalks from one end of the route to the other. The last event will take place Saturday afternoon, no special time being set.

INDISCREET HUSBAND IS HANDED A STIFF FINE, FOR EMBRACING WOMAN

Not altogether satisfied that the facts warranted so serious a charge as attempted criminal assault Mayor Frick Friday held Louis Barber, a New Boston sheet mill worker, guilty of disorderly conduct for invading John Manley's home during the latter's absence and forcing his attentions upon Mrs. Manley and fined him $25 and costs.

Barber pleaded for leniency for the sake of his wife and five little children but was reminded that he should have remained at home with them instead of loafing about town and he would not have gotten into trouble.

Barber was convicted upon his own admissions although he sought to show that Mrs. Barber, who is a mere slip of a girl, had encouraged him, declaring she had invited him into the room when he called to see her husband and that when he did try to embrace her that she cautioned him by saying "Look out or the old woman will see you." This the young woman vehemently denied. She said that she was busy wheeling her baby back and forth when she heard a knock on the door. Thinking it was a neighbor woman or one of the children downstairs she called "Come in." Seeing it was Barber she did not ask him to be seated. When told in answer to his inquiry that Mr. Manley was not at home, but would be shortly, she said Barber stepped over to the dresser, removed his hat and looking into the mirror began combing his hair. He then stepped over to where she was wheeling the baby buggy and saying, "One might as well be guilty as to be accused of it," put his arm around her and tried to kiss her. She said she said "No" in answer to his remark and struck him in the face with her fist. He then pushed her over on the bed but she jumped up and pushed him away. He pushed her down again and she struck him at the same time threatening to scream. She started for the door but he got in front of her and left. She ordered him to get down the stairs as fast as he could and never to return. She said he turned and exclaimed, "Don't tell," but she assured him she was going to notify her husband and cause his arrest.

Manley told of how upon his return home from work at the Stockham ice plant his young wife immediately told him he would have to do something with Barber and proceeded to relate what had happened. It so unnerved him he could not eat dinner. Going back to the factory he got excused from work for the afternoon and agreed with his wife to file charges against the man. He told of meeting Barber as he was in the act of boarding a street car, how he took him to a saloon a few times in order to detain him until he could get in touch with the police. He explained a remark Barber attributed to him about being jealous of him (Barber) a few nights ago by saying it referred to another matter entirely and not to his wife, Barber having once talked disparagingly of him because he had at once returned a dollar and an overcoat he had borrowed from him. He punctured Barber's reference about "the old woman" by telling the court that there is only one window in their room opening out on a nearby house top and that it is impossible for anyone in the neighborhood to see into the apartment.

It developed that the two families were once neighbors over in Boyd county, Ky. The Manleys at present are light housekeeping on West Ninth street. The mayor held that Barber had absolutely no business in Manley's home during his absence and therefore fined him $25 and costs. He was permitted to give an order on his time at the steel plant and pay the fine and costs in semi-monthly installments.

John Porter's pleading of not guilty and his demand for a lawyer and regular trial availed him nothing and the New Boston young man was fined $25 and costs and ordered to pay back $5.50 he had gotten from one Katie Miller of Stewartville.

The complainant, though she had filed an affidavit against Porter failed to appear against him and there was a suspicion that she may have been spirited away. Porter said he had been told she had moved to Ashland, Ky. Porter had been with the girl at New Boston and she entrusted the money to him. He went into a saloon and after spending some of the money left through a rear door. After waiting for him to return for over two hours she went home unaccompanied. She told the mayor in filing the affidavit that he had once pawned a watch she had loaned to him. Porter's sole witness, Norman Whitt, was used against him when it was proven by him that he had seen the couple leave together for New Boston and that the girl had told him that Porter got her money.

Walter Lotell who assumed the name of Henry Doe, was fined $5 for disorderly conduct. He had been noisy on Chillicothe street and disregarded the warnings of Officer Moore to go home. Jim Crawford and George Washington, strange negroes, drew $5 and costs each for drunkenness.

Jacob E. Meeker Elected To Congress

A telegram congratulating him upon his election to congress from the seventh district of Missouri was sent Hon. Jacob E. Meeker by the Business Men's League of Scioto county, Thursday evening. Mr. Meeker, who is a staunch republican, is well known in this city, having delivered several "wet" speeches in Portsmouth, one at the Home Rule tent several weeks ago. Mr. Meeker was formerly minister of the Compton Hill Congregational church of St. Louis, and is a man of strong convictions and intellectually he is a giant. He has few equal as an orator and will no doubt be one of the most conspicuous figures in the halls of Congress. Mr. Meeker was elected by more than 15,000 majority.

Compromise Likely In N. York Amer. Club

Chicago, Nov. 6—Compromise on the situation within the New York club seemed likely to be the basis under which its affairs would be settled when the club owners of the American league resumed their annual meeting today.

Friends of Frank Farrell, the club's president, mustered strength enough, it was said, to insure his remaining at the head of the Yankees and the main desire for a change appeared not to affect Farrell so much as one or two others.

When news of the disagreement which led to Frank Chance's resignation became public last summer, some of the magnates learned for the first time that Wm. Devery was a stockholder in the club, and it is his retirement, it was said, they thought necessary to leave Farrell a free hand in an endeavor to build up the clubs fortunes. Some of the owners went into the session with the suggestion that Devery sell out his holdings and Farrell be assured support toward making the Yankee team a winner.

Several clubs, it was given out, have refused to waive on Bender and Plank and will make offers to the Philadelphia club for them.

The Weather Man

The Weather Man (I know him well),
Who has charge of the station,
Is quite a decent sort of chap
Outside his occupation.

When not concocting devilish schemes
To pest us with weather,
He is a charming man to meet,
Delightful, altogether.

He is a man of brilliant wit,
He jokes and makes us smile;
Goes to his office, pulls a plug,
And lets it rain awhile.

He says to keep the thin ones on,
And then straightway doth go
Unto his shop and turns a switch
And lets a blizzard blow.

He is a smiling optimist,
His friends ne'er hear him sob;
But he is sure a pessimist
When he is on his job.

Outside his office, he's a prince—
A malcontent, inside.
It seems to be another case
Of Jekyll and of Hyde.

SINKING OF GERMAN CRUISER YORCK WAS DUE TO GERMAN MINE

Berlin, via Rome, Nov. 6—12:50 a. m.—Only the scantiest authentic details of the sinking of the German cruiser Yorck are available here. The admiralty has received from Wilhelmshaven little beyond the announcement of the time and place of the accident and the number of men saved.

A fuller report, it is expected, will probably be available soon. It is definitely announced, however, that the sinking was due to a German mine, not to hostile attack. The ship, which was under way, presumably swung outside of the channel through a mine field and touched one of the powerful German mines, which did short work of the big cruiser.

The conduct of the crew, in the moment of disaster, is described as exemplary, and there is much regret over the destruction of the cruiser—the heaviest individual loss as yet sustained by the German navy.

The loss of the Yorck is counterbalanced, in the German opinion, by the news of the daring raid of a German squadron into British home waters to indulge in what is described here as "a bit of rat hunting on its own account."

The reports from the commander of the squadron states that the Germans suffered no loss or damage to men or material and returned safely to its base, wherever that may be.

The retirement of the German squadron, it is stated here, may not improperly be described, in the much abused term, as a "strategic retirement," designed to draw its pursuers into difficulties. The names of the German ships engaged will not be published and there is the same reticence regarding the identity of the submarine which sank the cruiser Hermes.

In well informed quarters the British report of the sinking of a German submarine by the destroyer Badger is strongly questioned. So far as known, no German submarines have been destroyed beyond those whose loss was reported earlier.

The admiralty authorizes a positive denial of the assumption that the mines off the northwestern coast of Ireland were laid by commercial steamers under a neutral flag.

Berlin, Nov. 6—via The Hague and London, Nov. 6.—A report reaching here from Wilhelmshaven shows that 266 men are missing from the crew of the German cruiser Yorck, which was sunk recently off the north seacoast of Germany as a result of accidental contact with a German mine. Three hundred and eighty-four members of the crew, including the commander and the first officer, were taken off by another vessel.

Witchery of a Barn.

There is a spirit of poetry about a barn and, unconsciously, men are touched by it. In youth it kindles our imagination, and fosters our susceptibility to the simple beauty of common things; daybreak—with the fresh sweetness of the wet grass about us as we go up the path toward the great barn still darkly silhouetted against the brightening sky, with the weathercock, high up against the topmost band of pink, pointing to clear. With the opening of the barn door the day's work begins; the horse whinnies at the sound, for his corn; the cattle move expectantly in their stanchion rows; the chickens cackle and cluck in the hayloft, as they drop fluttering to the floor. Day has begun—day, with all its activities, with all its commonplaceness, with all its mysteries. Something of all this we feel, unknowingly, as we pull back the heavy bolt and throw open the barn door.—Suburban Life.

HOGAN GIVES RULING ON EFFECT OF HOME RULE LAW REGULATORY LAWS STAND

Columbus, O., Nov. 6—Following up his opinion of yesterday to the effect that the home rule amendment does not annul regulatory temperance laws, Attorney General Hogan today gave it as his opinion that at the end of 30 days after Nov. 30, the situation in all of the counties which have been voted dry by the Rose law will be the same as in present wet territory. He held, therefore, that the saloons to be established in the newly made wet territory will have to secure license before being permitted to do business.

The effect of this opinion is that territory made dry by township, municipality of residence districts option will remain dry unless hereafter voted wet.

On the other hand, there is nothing to prevent territory which shall become wet under the home rule amendment from attempting to become dry again under township, municipal and residence district option. Accordingly, there is a general movement under way in dry circles to call elections to make dry territory less than counties. But there can be no more county option elections.

Dry headquarters are claiming victories for prohibition in 71 counties in the state, including 28 counties that are now wet and operating under the license system. The dry figures show also that two dry counties, Warren and Miami, voted against Prohibition. On the whole, the dry forces declare themselves pleased with the result shown and argue that they would have won had it not been for the overwhelming majorities piled up in Hamilton and Cuyahoga counties.

FREAK ELECTION BET PAID

The spectacle of a business man wheeling another business man in a prosaic wheelbarrow through the business streets of the city was witnessed in Portsmouth Thursday night. The principals were Henderson Hutchison, manager of the Hutchison Music company, and Lou Schloss of the Brandau Book Store. Mr. Schloss did the wheeling and Mr. Hutchison sat contentedly in said wheelbarrow, a brand new one borrowed from the Hibbs Hardware company for the occasion.

It was another of those freak election bets that resulted in this unique parade being staged. Hutchison was a Willis man and Schloss stuck by Governor Cox. To accentuate their interest in the campaign Hutchison agreed to wear a Panama hat until December 1 if Willis was defeated and Schloss agreed to wheel Hutchison in a wheelbarrow from the Washington hotel to Gallia and Gay streets if Cox met defeat.

When Cox went down with the landslide it was up to Schloss to make his word good, which he did last night when he fulfilled his part of the ante-election agreement. The word was passed along and hundreds of people were out to salute the victor and the vanquished. Red fire was burned to illuminate the way for Schloss, who insisted on wheeling the victor over the roughest places in the street. It was certainly a bumpy ride for Mr. Hutchison, but he enjoyed it and he and Schloss were kept saluting their friends along the line of march.

MR. BRUSHART THANKFUL

"I want to express my gratefulness to those who voted for me last Tuesday and I hold no malice toward those who did not vote for me," said J. J. Brushart, democratic candidate for representative.

"I am sorry that I as not sent to the legislature as I would have given the people a change as it seems to me they are always wanting a change. I would have tried to have a bill passed that would make it midnight at the noon hour and noon time at the midnight hour. The people are constantly calling for a change and I would have tried to give them a wonderful change" continued Mr. Brushart in discussing his defeat. "It was a landslide all round so I guess there is no use trumping up excuses."

Thomas Rickey Injured In Fight

Following a disagreement over the ownership of a plate glass in the front door of a home which John Finley had been occupying near Harrisonville and which is owned by Thomas Rickey of this city these two men Friday afternoon staged a verbal battle which later resulted in the assault of Rickey. The latter as badly injured as he was kicked above the heart and it is alleged he was hit over the head by a club wielded by Finley.

Edward Flowers, a resident of Harrisonville and who lives near Rickey heard the two men quarreling this morning. He arrived near the scene of the fight just after Rickey had been knocked down and kicked over the heart. Finley, who was moving to the city continued on his way to the city according to Flowers. Finley had been living in Rickey's property and had vacated the home this morning. Both men are well known in Portsmouth and in the vicinity of Harrisonville.

Mr. Flowers with the assistance of George Walter moved Rickey to the former's home, where Dr. O. R. Micklethwait of this city dressed Rickey's injuries. While he was badly injured his condition is not dangerous it was stated. Rickey was unconscious for some time as he received a wicked blow over the head.

No arrest has been made and it as stated Friday that no warrant will be issued until the extent of Rickey's injuries are more fully determined.

INDISCREET HUSBAND IS HANDED A STIFF FINE, FOR EMBRACING WOMAN

Not altogether satisfied that the facts warranted so serious a charge as attempted criminal assault Mayor Frick Friday held Louis Barber, a New Boston sheet mill worker, guilty of disorderly conduct for invading John Manley's home during the latter's absence and forcing his attentions upon Mrs. Manley and fined him $25 and costs.

Barber pleaded for leniency for the sake of his wife and five little children but was reminded that he should have remained at home with them instead of loafing about town and he would not have gotten into trouble.

Barber was convicted upon his own admissions although he sought to show that Mrs. Barber, who is a mere slip of a girl, had encouraged him, declaring she had invited him into the room when he called to see her husband and that when he did try to embrace her that she cautioned him by saying "Look out or the old woman will see you." This the young woman vehemently denied. She said that she was busy wheeling her baby back and forth when she heard a knock on the door. Thinking it was a neighbor woman or one of the children downstairs she called "Come in." Seeing it was Barber she did not ask him to be seated. When told in answer to his inquiry that Mr. Manley was not at home, but would be shortly, she said Barber stepped over to the dresser, removed his hat and looking into the mirror began combing his hair. He then stepped over to where she was wheeling the baby buggy and saying, "One might as well be guilty as to be accused of it," put his arm around her and tried to kiss her. She said she said "No" in answer to his remark and struck him in the face with her fist. He then pushed her over on the bed but she jumped up and pushed him away. He pushed her down again and she struck him at the same time threatening to scream. She started for the door but he got in front of her and left. She ordered him to get down the stairs as fast as he could and never to return. She said he turned and exclaimed, "Don't tell," but she assured him she was going to notify her husband and cause his arrest.

Manley told of how upon his return home from work at the Stockham ice plant his young wife immediately told him he would have to do something with Barber and proceeded to relate what had happened. It so unnerved him he could not eat dinner. Going back to the factory he got excused from work for the afternoon and agreed with his wife to file charges against the man. He told of meeting Barber as he was in the act of boarding a street car, how he took him to a saloon a few times in order to detain him until he could get in touch with the police. He explained a remark Barber attributed to him about being jealous of him (Barber) a few nights ago by saying it referred to another matter entirely and not to his wife, Barber having once talked disparagingly of him because he had at once returned a dollar and an overcoat he had borrowed from him. He punctured Barber's reference about "the old woman" by telling the court that there is only one window in their room opening out on a nearby house top and that it is impossible for anyone in the neighborhood to see into the apartment.

It developed that the two families were once neighbors over in Boyd county, Ky. The Manleys at present are light housekeeping on West Ninth street. The mayor held that Barber had absolutely no business in Manley's home during his absence and therefore fined him $25 and costs. He was permitted to give an order on his time at the steel plant and pay the fine and costs in semi-monthly installments.

John Porter's pleading of not guilty and his demand for a lawyer and regular trial availed him nothing and the New Boston young man was fined $25 and costs and ordered to pay back $5.50 he had gotten from one Katie Miller of Stewartville.

The complainant, though she had filed an affidavit against Porter failed to appear against him and there was a suspicion that she may have been spirited away. Porter said he had been told she had moved to Ashland, Ky. Porter had been with the girl at New Boston and she entrusted the money to him. He went into a saloon and after spending some of the money left through a rear door. After waiting for him to return for over two hours she went home unaccompanied. She told the mayor in filing the affidavit that he had once pawned a watch she had loaned to him. Porter's sole witness, Norman Whitt, was used against him when it was proven by him that he had seen the couple leave together for New Boston and that the girl had told him that Porter got her money.

Walter Lotell who assumed the name of Henry Doe, was fined $5 for disorderly conduct. He had been noisy on Chillicothe street and disregarded the warnings of Officer Moore to go home. Jim Crawford and George Washington, strange negroes, drew $5 and costs each for drunkenness.

Jacob E. Meeker Elected To Congress

A telegram congratulating him upon his election to congress from the seventh district of Missouri was sent Hon. Jacob E. Meeker by the Business Men's League of Scioto county, Thursday evening. Mr. Meeker, who is a staunch republican, is well known in this city, having delivered several "wet" speeches in Portsmouth, one at the Home Rule tent several weeks ago. Mr. Meeker was formerly minister of the Compton Hill Congregational church of St. Louis, and is a man of strong convictions and intellectually he is a giant. He has few equal as an orator and will no doubt be one of the most conspicuous figures in the halls of Congress. Mr. Meeker was elected by more than 15,000 majority.

Compromise Likely In N. York Amer. Club

Chicago, Nov. 6—Compromise on the situation within the New York club seemed likely to be the basis under which its affairs would be settled when the club owners of the American league resumed their annual meeting today.

Friends of Frank Farrell, the club's president, mustered strength enough, it was said, to insure his remaining at the head of the Yankees and the main desire for a change appeared not to affect Farrell so much as one or two others.

When news of the disagreement which led to Frank Chance's resignation became public last summer, some of the magnates learned for the first time that Wm. Devery was a stockholder in the club, and it is his retirement, it was said, they thought necessary to leave Farrell a free hand in an endeavor to build up the clubs fortunes. Some of the owners went into the session with the suggestion that Devery sell out his holdings and Farrell be assured support toward making the Yankee team a winner.

Several clubs, it was given out, have refused to waive on Bender and Plank and will make offers to the Philadelphia club for them.

The Weather Man

The Weather Man (I know him well),
Who has charge of the station,
Is quite a decent sort of chap
Outside his occupation.

When not concocting devilish schemes
To pest us with weather,
He is a charming man to meet,
Delightful altogether.

He is a man of brilliant wit,
He jokes and makes us smile;
Goes to his office, pulls a plug,
And lets it rain awhile.

He says to keep the thin ones on,
And then straightway doth go
Unto his shop and turns a switch
And lets a blizzard blow.

He is a smiling optimist,
His friends ne'er hear him sob;
But he is sure a pessimist
When he is on his job.

Outside his office, he's a prince—
A malcontent, inside.
It seems to be another case
Of Jekyll and of Hyde.

HELP COMES QUICKLY

When Hyomei is Used For Head Colds, Catarrh or Croup

When your head is all stuffed up causing you dull headaches, difficult breathing, constant sniffling, and you feel generally miserable, there is nothing quite equal to Hyomei to give quick, effective and lasting benefit yet perfectly harmless, simple to use and inexpensive.

To get quick and certain relief from catarrh or a cold it is most important that the medication goes directly to the inflamed tissues lining the air passages. That's the Hyomei method. Just put a few drops of antiseptic Hyomei in the inhaler that comes with every complete outfit, and breathe it—you will feel better at once. It clears the head, quickly relieves the tightness in the chest and that choked up feeling—all disagreeable nasal discharges, watery eyes and dull headaches surely cease.

So certain is Wurster Bros. of the curative powers of Hyomei for catarrh, croup, asthma and similar diseases, that he sells it on the "No-cure no-pay" plan.

SINKING OF GERMAN CRUISER YORCK WAS DUE TO GERMAN MINE

Berlin, via Rome, Nov. 6—12:50 a. m.—Only the scantiest authentic details of the sinking of the German cruiser Yorck are available here. The admiralty has received from Wilhelmshaven little beyond the announcement of the time and place of the accident and the number of men saved.

A fuller report, it is expected, will probably be available soon. It is definitely announced, however, that the sinking was due to a German mine, not to hostile attack. The ship, which was under way, presumably swung outside of the channel through a mine field and touched one of the powerful German mines, which did short work of the big cruiser.

The conduct of the crew, in the moment of disaster, is described as exemplary, and there is much regret over the destruction of the cruiser the heaviest individual loss as yet sustained by the German navy.

The loss of the Yorck is counterbalanced, in the German opinion, by the news of the daring raid of a German squadron into British home waters to indulge in what is described here as "a bit of rat hunting on its own account."

The reports from the commander of the squadron states that the Germans suffered no loss or damage to men or material and returned safely to its base, wherever that may be.

The retirement of the German squadron, it is stated here, may not improperly be described, in the much abused term, as a "strategic retirement," designed to draw its pursuers into difficulties. The names of the German ships engaged will not be published and there is the same reticence regarding the identity of the submarine which sank the cruiser Hermes.

In well informed quarters the British report of the sinking of a German submarine by the destroyer Badger is strongly questioned. So far as known, no German submarines have been destroyed beyond those whose loss was reported earlier.

The admiralty authorizes a positive denial of the assumption that the mines off the northwestern coast of Ireland were laid by commercial steamers under a neutral flag.

Berlin, Nov. 6—via The Hague and London, Nov. 6—A report reaching here from Wilhelmshaven shows that 266 men are missing from the crew of the German cruiser Yorck, which was sunk recently off the north seacoast of Germany as a result of accidental contact with a German mine. Three hundred and eighty-four members of the crew, including the commander and the first officer, were taken off by another vessel.

Witchery of a Barn.

There is a spirit of poetry about a barn and, unconsciously, men are touched by it. In youth it kindles our imagination, and fosters our susceptibility to the simple beauty of common things: daybreak—with the fresh sweetness of the wet grass about us as we go up the path toward the great barn still darkly silhouetted against the brightening sky, with the weathercock, high up against the topmost band of pink, pointing to clear. With the opening of the barn door the day's work begins; the horse whinnies at the sound, for his corn; the cattle move expectantly in their stanchion rows; the chickens cackle and cluck in the havloft, as they drop fluttering to the floor. Day has begun —day, with all its activities, with all its commonplacenesses, with all its mysteries. Something of all this we feel, unknowingly, as we pull back the heavy bolt and throw open the barn door.—Suburban Life.

HOGAN GIVES RULING ON EFFECT OF HOME RULE LAW REGULATORY LAWS STAND

Columbus, O., Nov. 6—Following up his opinion of yesterday to the effect that the home rule amendment does not annul regulatory temperance laws, Attorney General Hogan today gave it as his opinion that at the end of 30 days after Nov. 30, the situation in all of the counties which have been voted dry by the Rose law will be the same as in present wet territory. He held, therefore, that the saloons to be established in the newly made wet territory will have to secure license before being permitted to do business.

The effect of this opinion is that territory made dry by township, municipality of residence districts option will remain dry unless hereafter voted wet.

On the other hand, there is nothing to prevent territory which shall become wet under the home rule amendment from attempting to become dry again under township, municipal and residence district option. Accordingly, there is a general movement under way in dry circles to call elections to make dry territory less than counties. But there can be no more county option elections.

Dry headquarters are claiming victories for prohibition in 73 counties in the state, including 28 counties that are now wet and operating under the license system. The dry figures show also that two dry counties, Warren and Miami, voted against Prohibition. On the whole, the dry forces declare themselves pleased with the result shown and argue that they would have won had it not been for the overwhelming majorities piled up in Hamilton and Cuyahoga counties.

FREAK ELECTION BET PAID

The spectacle of a business man wheeling another business man in a prosaic wheelbarrow through the business streets of the city was witnessed in Portsmouth Thursday night. The principals were Henderson Hutchison, manager of the Hutchison Music company, and Leo Schloss of the Brandau Book Store. Mr. Schloss did the wheeling and Mr. Hutchison sat contentedly in said wheelbarrow, a brand new one borrowed from the Hibbs Hardware company for the occasion.

It was another of those freak election bets that resulted in this unique parade being staged. Hutchison was a Willis man and Schloss stuck by Governor Cox. To accentuate their interest in the campaign Hutchison agreed to wear a Panama hat until December 1 if Willis was defeated and Schloss agreed to wheel Hutchison in a wheelbarrow from the Washington hotel to Gallia and Gay streets if Cox met defeatd.

When Cox went down with the landslide it was up to Schloss to make his word good, which he did last night when he fulfilled his part of the ante-election agreement. The word was passed along and hundreds of people were out to salute the victor and the vanquished. Red fire was burned to illuminate the way for Schloss, who insisted on wheeling the victor over the roughest places in the street. It was certainly a bumpy ride for Mr. Hutchison, but he enjoyed it and he and Schloss were kept saluting their friends along the line of march.

MR. BRUSHART THANKFUL

"I want to express my gratefulness to those who voted for me last Tuesday and I hold no malice toward those who did not vote for me," said J. J. Brushart, democratic candidate for representative.

"I am sorry that I as not sent to the legislature as I would have given the people a change as it seems to me they are always wanting a change. I would have tried to have a bill passed that would make it midnight at the noon hour and noon time at the midnight hour. The people are constantly calling for a change and I would have tried to give them a wonderful change" continued Mr. Brushart in discussing his defeat. "It was a landslide all round so I guess there is no use trumping up excuses."

Thomas Rickey Injured In Fight

Following a disagreement over the ownership of a plate glass in the front door of a home which John Finley had been occupying near Harrisonville and which is owned by Thomas Rickey of this city these two men Friday afternoon staged a verbal battle which later resulted in the assault of Rickey. The latter as badly injured as he was kicked above the heart and it is alleged he was hit over the head by a club wielded by Finley.

Edward Flowers, a resident of Harrisonville and who lives near Rickey heard the two men quarreling this morning. He arrived near the scene of the fight just after Rickey had been knocked down and kicked over the heart. Finley, who was moving to the city continued on his way to the city according to Flowers. Finley had been living in Rickey's property and had vacated the home this morning. Both men are well known in Portsmouth and in the vicinity of Harrisonville.

Mr. Flowers with the assistance of George Walker moved Rickey to the former's home, where Dr. O. R. Micklethwait of this city dressed Rickey's injuries. While he was badly injured his condition is not dangerous it was stated. Rickey was unconscious for some time as he received a wicked blow over the head.

No arrest has been made and it as stated Friday that no warrant will be issued until the extent of Rickey's injuries are more fully determined.

Rumors Are Denied By Connie Mack

Philadelphia, Pa., Nov. 6.—Connie Mack came out of his shell today to put a blanket over a cluster of rumors affecting himself and his club which have been given much publicity of late.

He denied emphatically that he had any intention of retiring from the management of the Athletics and purchasing the franchise of the New York Americans. He added that he expected to spend the remainder of his baseball days as the director of the destinies of the Athletics.

He ridiculed the report he had contemplated selling or trading Eddie Collins so as to reduce the expenses of his club.

HARVARD IS FAVORITE

Harvard will be a 5 to 3 favorite over Princeton when they take the field Saturday. Brickley is expected to get in one quarter and if he does it will be good night for the Princetonians. He has been practicing for a week and is said to have completely recovered from the effects of his recent operation for appendicitis.

RAWLINGS IS WANTED

The management of the Cincinnati team will make an effort to have Infielder Rawlings come back to the fold. They would rather have Rawlings than Berghammer and now that the latter has jumped to the Feds an effort will be made to have Rawlings return to the Rhinelanders. He is a splendid all round infielder and a .260 hitter.

CLARKE SIGNS CONTRACT

Tom Clarke of the Reds has signed a two year contract and is safely out of the reach of the grasping Feds. He had a fine season last year and there are many who look for Clarke to be one of the real stars in the catching department.

DOUBLE BILL SUNDAY

There will be another double bill of football at Millbrook park next Sunday when the Ironton Lombards come to this city to meet the Giants. The Giants lost to the Lombards in Ironton last Sunday by the score of 7 to 6. The Giants have been holding nightly practice and are counting on revenge when they meet Sunday.

The first game will be called at 1:30 when the Moldoons and the New Boston Amateurs tackle each other in battle royal. It will be the first game for New Boston this season.

MARIETTA AT GRANVILLE

Granville, Nov. 6.—With the approach of the big game with Marietta here Saturday, Denison players are working hard to prepare themselves for the trying struggle. And it is sure to be trying, for Marietta has the signal honor of a clean record for this year. Coach Livingston's men will do all in their power to change the trend of the river team's successes, and at the same time boost the stock of the "Big Red" eleven.

MANY TRADES ARE BREWING IN NATIONAL

Now comes the story that many trades will be pulled off during the annual meeting of the National league moguls, which will be held in New York early in December.

It is said that McGraw will place six of his men on the market and that two of them, Snodgrass and Murray may go to the Cincinnati club. The meeting in view of the continued activity of the Federal forces will be one of considerable importance.

MATCH GAME OF POCKET BILLIARDS

Two of Portsmouth's noted cue artists, Bird Zeigler and "Shammy" Yates, will match wit and ability at the Temple Billiard Parlor tonight at eight o'clock in a game of pocket billiards, 200 balls. These men are undoubtedly the best pool players in the city and the game will be interesting from start to finish. The public is cordially invited to witness the match. Clarence Oosterman, manager of the East End Furniture Co., and one of the crack billiard players of the city, will officiate as referee, which means that both men will be given a square deal.

GIVES YOUNGSTERS A SPLENDID CHANCE

Since the forward pass became part of college football, the scores show an astonishing number of battles where the humble youth of the little jerkwater schools most gayly trim the haughty stars of the big, famous universities. Surest thing you know. What, after all, is the action of the forward pass but the good old motion accompanying the pitching of hay from stack to wagon?

Notre Dame, Ind., Nov. 6.—Decided improvement was shown in the work of the varsity at Notre Dame Thursday in the last practice before the team leaves for West Point. ATTEMPTED TO ROB THE LEMON STORE

An attempt to enter L. F. Lemon & Co.'s store in the East End Friday night was frustrated by Night Watchman Oscar Rickey when he caught a hobo after he had broken a pane of glass in one of the windows. Officer Rickey who went on duty only Wednesday night noticed two stunge men alight from an N. & W. "blind baggage." Following them he managed to reach the rear of Lemon's store in time to see one of the fellows attempt to gain an entrance. After grabbing the fellow while his companion fled, the officer forced his prisoner to pay over enough money to compensate the firm for the loss of the window and then ordered him out of town.

NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly Clears Nose, Head and Throat—Stops Nasty Catarrhal Discharges. Dull Headache Goes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold in head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith just once in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

I Sell Good Watches at Modest Prices!

I believe in selling a lot of watches exactly as I believe in selling a lot of good jewelry.

I know I cannot sell a lot of watches and a lot of good jewelry unless I sell them at modest prices in other words, I want my store to be as busy as a grocery store.

In order to make it busy I realize that I must sell good goods at a very, very small profit. I would rather sell six watches at a modest profit than one watch at a big profit.

I carry every good make of watch, including Howard, Hamilton, Elgin, Waltham, South Bend, etc. I guarantee each one. I will give them my personal attention after I have sold them, so that they will keep time and give you satisfaction.

Furthermore I will sell you them at right prices because as I said, I am satisfied with a small margin of profit.

Father Is Dead

Victor Penman, colored chef at the Manhattan restaurant has returned from Meadville, Pa., where he was called by the death of his father, the late Russell B. Penman. Concerning his death the Meadville Tribune says:

"The death of Russell B. Penman, which occurred at his home on Randolph street about 5:30 Monday morning, marks the passing of a man who for 23 years was a conspicuous figure in Meadville, as the largest man in the city. But it was not wholly in weight or giant strength that Mr. Penman was conspicuous, for he was a leader among the colored citizenship, a man of firm Christian conviction and practice and a good citizen. Mr. Penman was born in Danville, Ky., about 70 years ago and came to Meadville 11 years ago, where for 23 years he followed his trade as a carver in his shop in the then Dehmanter Block, now the Lafayette, under where now is the D. T. Roamer jewelry store. He was an earnest member of the Bethel A. M. E. church, very active as long as he was able to attend regularly, and always interested. He was also a life member of the Grand Lodge F. & A. M., with which order he united in Philadelphia. He is survived by his wife, three sons, Victor of Portsmouth, Ohio, Edward, and W. G., of Meadville, and two daughters, Mrs. Clarence Chinn of this city, and Mrs. Margaret Hunter, of Jersey City. He also leaves one sister, Mrs. Susan E. Davis, and a brother, Marshall Penman, both of Danville, Ky.

IF BACKACHY OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

McCormick was represented at the hearing by Attorney Theodore K. Funk, who made an earnest plea for the board to rescind its former action.

The Movies

"Pursuit of the Phantom." Columbia Tonight.

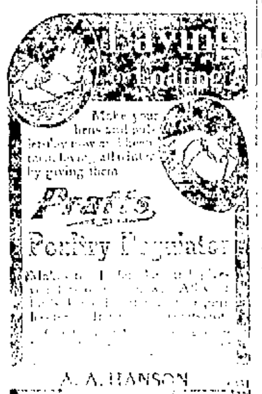

This is our regular weekly "Paramount" feature day at the Columbia and today's picture is a big five reel production that is sure to please. It is entitled "The Pursuit of the Phantom and is a "Bosworth" picture. You will remember Mr. Bosworth in the "Sea Wolf" and other great pictures. He is seen at his very best in the big picture this evening, so you don't want to miss it, as you will always regret it.

Just think of this. Commencing this evening, all Paramount pictures will be shown at 10 cents to all instead of 20 cents for adults as in the past. You simply can't beat these prices anywhere, neither can you beat the pictures.

At The Exhibit.

"The death Mask" is a two part feature at the Exhibit tonight and is supplemented by a Mutual "Her Birthday present." "In the Death Mask" Running Wolf, the son the High Chief of a Southland tribe, is fascinated by the vision of an Indian maiden which appears to him at intervals. He repulses gently the advances of Nona, a maiden of his own tribe. One Bear, an exhausted Indian, staggers into the camp and tells them of a tribe of fierce Indians far to the north, called the Tribe of the Three Brothers. He also describes a beautiful Indian girl whom Running Wolf recognizes as the girl of his dreams.

He journeys north to secure the Indian maid. He defeats the two brothers in battle, and the Indians call upon the third battle, brother who always wears a grotesque mask over his face and whom they regard with superstitious ... forest, where Running Wolf unmasks the mysterious personage and reveals the face of Nona, the maiden of his own tribe. Saturday's feature is a great western play "The Children of The West."

Dandy Sun Show

The Follies of Broadway Musical Comedy company played to capacity houses last night at the New Sun theatre. This is the best musical show that Manager Lee has had an opportunity to offer the patrons this season. Alive from start to finish with snappy jokes that are original, catchy songs and pretty girls, the entire show is one that one can not help but enjoy. Two complete settings, one for each part, are made specially for this splendid show and sets it off to the best advantage. The costumes of the ladies for each part are beautiful while the opening of the second part give the ladies an opportunity to see the newest creations from Paris. One of the best parts of this clever production is the introduction of impersonations of the famous actresses. This special number won rounds of applause.

WILL ASK FOR MONEY TO PROTECT RESERVOIR

The Board of Control, at a meeting Friday morning, decided to ask city council tonight to appropriate $1750 for reinforcing the east wall of the reservoir.

The board had gone over the ground Thursday and somewhat modified the plans prepared by Engineer J. F. Whitmer. It was suggested that the work be postponed until next spring as owing to concrete work becoming hazardous during cold weather, but after quite a lengthy discussion it was decided to go right ahead with the work and do as much of it as weather will permit and complete it when possible.

THE MARKETS

Chicago, Nov. 6.—Fear of extensive crop damage in Argentina gave a lift today to the price of wheat. Apparently weak holders in Chicago had generally unloaded and the buyers were of a strong character. The opening, which varied from 1-8 to 1-4 off to 1-4 to 3-8 up, was followed by a moderate rise all around.

Active shipping demand rallied the corn market. Exporters were said to be looking about for lots available for prompt delivery. After opening 1-8 to 3-8 down, quotations ascended well above last night's level.

Oats like what responded to reports of frost damage in Argentina. The losses there were estimated at 15 per cent of the expected yield of oats.

Shorts covering made the provision market firm. Offerings were scanty owing to the stoppage of hog receipts here beginning tonight.

A set back took place later when wheat turned weak but the effect wore off. The close was firm, 5/8 to 3/4 above last night.

Big primary receipts acted later as a drag on corn prices and so also did scarcity of ocean freight room. The close, however, was strong, 1/2 to 5/8 and 3/4 above last night.

BOLD YEGG GANG BLOWS SAFE AT SCIOTOVILLE

Citizens Are Held At Bay By Nervy 'Lookout' With Gun

Yeggmen, working in full view of the residents of the village, blew open the iron safe in the Addison Taylor store in Sciotoville about 1:30 o'clock Friday morning and rifled its contents. Nothing of value was secured by the thieves, who made good their escape and are still at large.

Entrance to the store was gained by forcing open the front door. The safe, which was a heavy iron one, was brought from the rear of the store to near the front door, where it was wrecked by a heavy charge of nitro-glycerin. Three separate reports in rapid succession, were heard, villagers claim.

Alarm Is Given

Tom Stidham, young man employed in a pool room who lives near the store, was the first to give the alarm, having been awakened by the explosion. He hurried to the telephone exchange across the street from the store, and awakened the operator, Teachnor Shump, Dr. J. W. Hutchens, and Gene Hacquard, by phone.

Shump, who lives across the street, from the store, was the first one on the scene. As he came out of his house, he saw two of the robbers busily engaged in going through the contents of the safe, which were scattered over the floor.

Was Fooled By "Look Out"

He started across the street in the direction of the store, but was warned by a third man, standing guard on the corner. This man told him that he was waiting his chance to capture the robbers and turn them over to the authorities. It developed afterward that the third man was a member of the robber gang.

Shump returned to his home after his gun, and says he would have been able to have apprehended the robbers had not his gun failed to go off. Mr. Shump's wife was also ordered back into the house by the man on guard, who threatened to shoot her if she advanced further.

In the meantime, the robbers inside were working fast, and after assuring themselves that they had overlooked nothing, they came out of the front door, and started on a brisk run down Main street, having been joined by their companion outside.

Begin Chase of the Robbers

About this time, Dr. Hutchens and Gene Hacquard arrived on the scene, the former in his automobile. Along with several others, who had been attracted by the commotion, they gave chase after the robbers, who had started in the direction of the N. & W. railroad tracks.

The fugitives proved too fast for them, however, and soon had them outdistanced. Dr. Hutchens and Gene Hacquard then started in pursuit of them in the former's automobile going as far as Wheelersburg, but they failed to locate them or unearth a clue that would indicate the direction in which they had gone.

Sheriff On The Scene

Sheriff Eckhart was notified soon after the robbery was discovered, and he hurried to the village in his automobile. After ascertaining the direction taken by the robbers he too, pursued them as far as Wheelersburg, making a search of the territory along the route, but without success.

One party who started after the thieves on foot claim to have seen the men from the bridge east of Sciotoville headed through the willows on the Ohio river bank, but a diligent search of the willows failed to reveal them.

The search was later abandoned, and not much hope is entertained by the authorities that a capture can be effected. The officers have no clue that would lead to the detection of the robbers, as they have no description of them other than that are big, husky men.

The affair created a sensation in Sciotoville, and many of the residents were awakened by the excitement, later joining the posse that started in pursuit of the yeggmen.

No Money Secured

Addison Taylor, the proprietor of the store, was notified of the robbery soon after it occurred, and went to the store to make an investigation. He stated Friday morning that only a few papers of little value were missing, and that the robbers failed to secure a single penny for their pains, he having banked his money Thursday afternoon.

The general theory accepted by Sciotoville people is that the robbery was the work of professional yeggmen, and that local talent had no hand in it. Some claim that they saw three men who answered the description of the robbers in Sciotoville Thursday afternoon, evidently getting a line on the situation before pulling off the job.

One man, Alfred Fewkes, a butcher, who lives directly across the street from the store, witnessed the robbery from an upstairs window, it was learned Friday. He saw the men inside the store go through the contents of the safe carefully, but was unable to interfere, as he was unarmed.

"Blamed" Gun Wouldn't Work

Mr. Shump, in relating the circumstances of the robbery Friday morning, said: "I was awakened about 1:30 o'clock by the ringing of the telephone bell. My wife answered the phone, and said that I was wanted. It was the telephone operator, who informed me that the Taylor store was being robbed.

"I hastily dressed ,and went out of the house. Once outside, I could plainly see two men searching through the contents of the safe, which were scattered all over the floor. As I started across the street in the direction of the store, a man on the corner ordered me to go back, at the same time telling me that he had stationed himself there to apprehend the robbers.

"I returned to the house, and secured my gun. Stationing myself in the yard near the telephone exchange, I had the drop on the robbers, but the gun refused to discharge. I made several unsuccessful attempts to shoot, and could have landed the men if the gun had been in working order.

"Once, my wife came out of the house and started across the street, but was ordered back by the same man who warned me to return to the house. This man joined the robbers in their escape later, so he must have been one of the gang."

Mr. Shump stated that fully a dozen men arrived on the scene just as the men were running up Main street in the direction of the N. & W. railroad tracks, and that the majority of them started in hot pursuit. The fugitives were too speedy for them and soon increased their lead and were lost sight of.

Mr. Taylor's loss is confined to the wrecking of the safe, which is a total loss, three broken show cases, and the glass in the front doors, all of which is covered by insurance.

The "yeggmen" are believed to be the same gang which has been operating through Southern Ohio at a lively rate for some weeks past.

The town of Peebles was twice visited, the post office, N. & W. depot and a restaurant being robbed and on the return visit when the gang again attempted to enter the post office they were fired upon by a watchman. The N. & W. stations at Piketon and Coalgrove were entered repeatedly. The Standard Oil company's office in this city was entered but finding the safe open the gang left without removing all of its tools and paraphernalia. Last week the safe in the Portsmouth Chemical company's plant was blown and the cash box containing about $6 was taken.

The Addison Taylor safe robbed at Sciotoville Friday morning was fully insured by the George E. Kricker Agency. The loss of valuables as well as damage to the safe, furniture and fixtures will be fully paid at an early date. adv

Paving News

The work of making the survey for the two miles of road paving that will be put down from the Union Mills to Dry Run on the West Side will be completed in the next few days, County Road Supervisor Harold Wendleken stated Friday that the road work under way in Lawrence, Scioto and Adams counties was progressing satisfactorily, advantage being taken of the fine weather of the past few weeks.

Was Well Attended

The Military Club gave one of their popular dances in the Ben Hur hall Thursday evening. Fifty couples attended and music was furnished by the Journey Trio. The committee in charge included Charles Bowser, Garland Lewis, Basil Hardgrove, Carl Burkhardt and Paul Newland.

TOOK WINTRY BATH IN OHIO PAY ELECTION BET

"September Morn" had nothing on the four High School students, Dave Williams, Leon Wilson, H. Wall and C. Pirrung, who braved the chilly breezes on Thursday night and took a dip into the murky waters of the Ohio river. The four youthful actors staged the scene at the foot of Chillicothe street about 9:30 o'clock. The wintry dip or swim was the result of an election bet. One of the boys was so intent on getting it over with that he went in with a lighted cigarette in his mouth. They shivered like leaves on a shaky tree while donning their clothes.

WEST END NEWS

MARTIN & CO'S. OFFICE IS BURNED; THE LOSS IN FIXTURES, ETC. IS HEAVY

Fire of mysterious origin completely destroyed the office of A. J. Martin & Co., builders of the sub-structure for the new county bridge at the Scioto river Point Friday morning at 3:30.

The office, a well constructed one story frame structure, was gutted and such of the contents as escaped the flames were ruined by water and smoke. The contracting fire places its loss, exclusive of papers and data of years' accumulation at $1200 partially covered by insurance, while the loss on the building which is owned by Philip J. Hehl is $500 on which $200 insurance was carried.

Fire Started Near Meter

The fire started in the southwest corner of the building in which an electric meter was located. The whole west end of the office burned to the ground. The lower end of Second street being filled with sand, gravel and limestone, the city firemen were hampered considerably in their work.

The fire was discovered by Harry Calvert, a former N. & W. engineer, now employed as night firemen at the Martin company's engine room. He had just came out from behind the boilers when attracted to the bright glare from behind the row of houses and cottages on the north side of Second street. Joe Gaus, a foreman, also saw the fire a moment later. Calvert made the rounds of nearby homes, arousing the sleeping occupants. Lawrence Cole, a son of James Cole, living in the Leo Sommer cottage directly adjoining the office on the east, was awakened from his sleep by the noise and heat of the flames playing against the window alongside his bed. He aroused others of the family and his young brother, Herman Cole, rushing across the street, turned in an alarm from Box 12. The Cole family and others prepared to move their household effects, but firemen soon had the blaze under control.

Equipment Destroyed

A $325 adding machine, valuable surveying instruments, such as levels and transits, a typewriter and new office furniture were among the many things ruined or destroyed. A rug which S. A. Patterson, senior member of the contracting firm, had purchased a few days ago, and which he had left in the office over night, preparatory to sending it to his home in Danville, Va., was also ruined. He had taken a fancy to the rug because of a peculiar weave.

A sweater and aprons belonging to Mrs. Mary Gray, the stenographer for the contracting company, also went up in flames. The company's iron safe containing valuable papers, was intact.

The fire will in no way interfere with the company's work on the bridge, as a temporary office has been established in the John Swearingen grocery across the street.

Foreman Johnson was on the other side of the river when the fire broke out. Summoning his men to join him, he started on a run for the scene, and in rushing across the firm's foot bridge, stumbled and fell off, landing in a sand-pile 12 feet below. Mr. Hehl expects to rebuild the office as soon as the insurance is adjusted. The lower side of the Sommer cottage was slightly scorched.

Insure with Marvin C. Clark, First National Bank building.

Many Rumors Arise From Gifford's Death

It develops that Frank Gifford, who was found dead in bed in a room at the Schuler hotel Thursday noon, had resigned as delegate of the Bartenders' Union to Central Labor Council Sunday afternoon and his actions at the time give color to the suspicions of some that he may have committed suicide. Acting Coroner Byron gave a verdict of accidental death, holding no one was to blame.

Gifford presented his resignation verbally, and when pressed for a reason declared he had personal reasons which he would never disclose. His action excited considerable private comment among fellow bartenders. Henry Lordier was elected to succeed him as delegate.

Gifford had ben in poor health and out of employment for some time past, but returned to Portsmouth from Jackson and put in all day election day in Precinct B of the First ward working in the interest of Home Rule. He had been drinking considerably for several days. Friends say that he had not been drinking any last winter at the time he was found unconscious on the floor of his room.

Gifford was a very intelligent young man and was well liked by all who knew him. Two brothers, Will and Otto Gifford, arrived here Thursday evening to take charge of the remains. They spent the night at the home of their cousin, Isaac B. Thompson, grocer, of 2027 Grant street.

Besides the brothers, Gifford is survived by his father, William Gifford, and two sisters, Misses Eva and Edna Gifford, of Jackson. The body was shipped to Jackson via the B. & O. S-W. accommodation train Friday afternoon. L. H. Austin, secretary of the Portsmouth Bartenders' Union, accompanied the body. That organization will defray the funeral expenses.

Severe Blood Troubles Vanish

With Magic Effect, Great Remedy Makes Disease Disappear.

At almost any drug store you may obtain S. S. S. the famous blood purifier, and you then have the veritable wizard that makes all blood troubles vanish. Your stomach takes kindly to S. S. S. It rushes into your blood, is a purifying wave, makes the liver, kidneys, bladder and skin work in harmony; stops accumulations that have caused rheumatism, catarrh, swollen glands, sore throat and skin eruptions.

Just as food makes blood, so does S. S. S. follow the process of digestion to stimulate natural secretions to protect us against the ravages of disease germs. We are well aware of the fact that these germs are apt to be latent within us to break forth in violent eruptions of the skin whenever the system is in a low state of resistance. And it is to both prevent these eruptions or to get rid of them that Nature gave us such an ally as S. S. S. It is purely vegetable, contains no mercury, and yet it overcomes these serious troubles for which mercury has been employed for ages. In every community are people who know this to be true. They owe to S. S. S. their recovery. Get a bottle today. Refuse all substitutes. Read the folder around the bottle that tells of the wonderful work being done by the medical department in assisting users of S. S. S. Lost Everything In A West Side Fire

The career of James, better known as "Bunk" Boyd as a farmer, received a decided setback when fire completely destroyed his home on Lousy Run Thursday afternoon.

Boyd was working in a corn field while his wife was engaged in sweeping leaves from in front of the house, a one story frame dwelling.

Fortunately their young son Charles stepped outside to watch the mother though it was his usual time for taking a nap. Turning about Mrs. Boyd was shocked to see the whole interior of the house in flames. These spread so rapidly that the house was consumed before anything could be saved. The family lost their entire earthly belongings save the clothes they had on and the loss is a blow to them as they had no insurance. The property belonged to Leo Sommer and the loss is estimated at $300 with no insurance. Boyd had but recently purchased a horse and wagon and decided to try his hand at farming. He was formerly employed with John Capehart, coal dealer.

THE NERVES AND THEIR NEEDS

We do not give much thought to our nervous system when it is working all right but when it goes wrong nature has a way of calling it forcibly to our attention by something that we cannot overlook—pain.

Try to reach a painful nerve with medicine of any sort and you are confronted with a fact that every doctor knows, that the only way to reach the nerves is through the blood.

You see now why Dr. Williams' Pink Pills, the great tonic for the blood, are also a great nerve builder. When a nerve becomes inflamed and painful it is—unless caused by an accident—because the blood was not giving it the elements of nourishment it needed. Dr. Williams' Pink Pills build up the blood, the nerves are strengthened, the inflammation subsides and the pain vanishes. By keeping the blood rich and red by the use of Dr. Williams' Pink Pills the danger of nervous breakdown, insomnia, nervous indigestion and other disorders caused by ill-nourished nerves is greatly lessened. In children the use of Dr. Williams' Pink Pills banishes the fear of St. Vitus' dance.

The Dr. Williams Medicine Co., Schenectady, N. Y., will send free on request a good little book on Nervous Disorders. Write for it today. Your own druggist sells Dr. Williams' Pink Pills.

Negro Arrested On White Slave Charge

Reese Trigg, colored, of No. 1120 Twelfth street, was arrested by James Calfee, a deputy United States marshal, and taken to Welch, W. Va., Thursday at midnight to answer to a "white slave" charge.

Trigg, who has been employed with A. J. Martin & Co., on the Scioto river bridge job, stoutly denied his guilt, and in support of his claim exhibited a marriage certificate showing that he and Cornelia Bard had been married by Squire John W. Byron in this city on October 7th.

Trigg denied that he had ever lived with the woman, either in West Virginia or in Portsmouth before their marriage. He had met her at her home in Roanoke, he said, and declared he induced her to come to this city for the sole purpose of marriage. The warrant for Trigg's arrest was issued by U. S. Commissioner Jos. M. Crockett and charged Trigg with having transported the woman from McDowell, W. Va., to Portsmouth last September, for immoral purposes. Trigg's wife did not accompany him to Welch, Thursday night.

What it has accomplished for others it may do for you. Read this:—

148 E. 122d St., New York.

"Gentlemen: Last December I took a sudden cold, which developed into Pneumonia. The doctor did all he possibly could for me, but could not clear my lungs. One day I saw a testimonial in one of the papers telling of the good results someone had from taking Eckman's Alterative for a trouble of the lungs. I began taking it and soon felt good results. My lungs began to clear up and I began to gain in strength and was soon well enough to take up my work again. I am in better health now than I have been at any time. I am a missionary worker for the New York Home for Homeless and Friendless Boys."

(Affidavit) ERNEST F. WILCOX.

Suit On 9 Notes

Suit to recover money due them on nine promissory notes, dated March 18, 1913, aggregate value of which is $1700, and to foreclose a mortgage on three tracts of land in Nile township, given as security for their payment, was filed in common pleas court Friday morning against John W. Foley, by Attorney George Sheppard, representing Nellie G. Oakes, George Oakes, Anna L. Ranshahaus and Mary E. Ranshahaus.

The notes were originally made payable to Eva Smith, who later assigned them to the four defendants. Only one of them, for $200, is over due, but the plaintiffs allege that the terms of the mortgage were violated when the first note became overdue. They, therefore, pray the court to determine the present worth of the eight notes so that the total amount can be paid out of the proceds of the sale of the mortgaged property. A credit of $40 appears on the note now overdue, leaving $160 due amount, for which they ask judgment.

RUSHING THE WORK ON $2,000,000 BRIDGE OVER OHIO

Big Force Will Be On The Job; 27 Piers Are To Be Built; Cemetery Is Moved

Work is progressing steadily on the $2,000,000 bridge that will span the Ohio at Sciotoville, to provide a route to the north for the C. & O., and ere long more than 300 men will be on the job, providing the weather remains at all favorable.

An idea of the magnitude of the work may be gained from the fact that twenty-seven concrete piers will have to be built to provide for the bridge and the approaches. A cemetery is now being moved to make way for the improvements, and altogether the scene presented the visitor is a busy one.

Forty yards above the Little Scioto river covered bridge is a small roadway leading to the river bank. Facing this roadway about fifty yards from the main pike are the small shacks for housing the tools and cement and the house formerly occupied by Charles Leichner and family that has been converted into the offices for Chief Foreman J. Smith Miller and Engineer A. W. Dann who are on the job every minute of the day.

More than fifty men on the job at present but many more will arrive as soon as the water will permit the moving of the Dravo Contracting company's material from New Martinsville, W. Va., where they just completed Dam No. 15. The boats and barges loaded with men and machinery are ready to start as soon as the water permits. The large derrick boat that anchored at the mouth of the Little Scioto river two weeks ago with several barges has been moved to a point 350 feet above the Little Scioto and 775 feet from the top of the Ohio river bank where the first land pier will be sunk.

The derrick boat can be used as a sand digger as it is equipped with a large clam shell dipper. It can be put to another use, that of digging holes for piling but its main work will be the lifting of the large pieces of lumber, logs, and machinery, used in the construction of the concrete work for the sub-structure.

The Dravo Contracting company has the contract for all the substructure work which includes twenty-seven concrete piers, the majority of which will be across the Kentucky bottom land that stretches back to the hill from the river. The C. & O. tracks lie along the base of the hill and it will be necessary to trestle the wide stretch of bottoms in order to keep the track on the level.

The first step, in the erection of the $2,000,000 bridge is the building of the coffer dam for the main middle river pier that will be known as the low water pier, it being the only one in the water at a low stage. The coffer dam measures 112 feet up and down stream and 56 feet across. The cribbing work on the coffer dam was started when the dredge boat anchored near the bridge site and if the river does not interfere it will be but a short time before this coffer dam will be put down. The work of pouring concrete will be started within thirty days barring high water.

While the work on the coffer dam is progressing nicely, a small number of men are at work excavating for the Ohio river bank pier. The excavating for this pier is directly in the path of leading down the bank to the water's edge and will prove a pitfall to many if they go about the bridge site without plenty of light or a guide. Many small holes are being dug here and there that will catch more than one unsuspecting person eager to view the bridge work.

The Ohio end of the bridge will strike the hill just above the Little Scioto river bridge.

E. E. Huequard, undertaker at Sciotoville, is busy transferring the remains of the persons buried in the old cemetery recently purchased by the C. & O. for a right away. The bodies are being buried in the Wheelersburg cemetery. The famous mysterious grave of which a story has been written will be wiped out with the moving of the cemetery.

The office of Engineer Dann and Foreman Miller has been besieged for the past two days with hundreds of men seeking employment. Very few foreigners are employed by the company and just a few negroes now and then. Shacks will be built for a small number of the men while the greater number of them will find homes with the people of Sciotoville, New Boston and Portsmouth. The majority of the men now on the job are living in this city. Foreman Miller has got his family here and will locate in a few days.

The beginning of work on the bridge will mean lots to the villages of Sciotoville and New Boston. When pay day rolls around the coffers of the business men in these two stately little villages will be greatly enriched.

At present the men are working eight hours a day. The residents of Sciotoville consider the small number of men on the job now a big thing. "With the large number of men that pass here every day in groups of nine and ten it seems to me that the work ought to be nearly done by this time," said one of the residents on Main street, Sciotoville, Thursday evening. It will be a regular parade when the whole force of 200 or 300 men go trailing home from work after they all get on the job. The Dravo Contracting company will take about eighteen months to complete their work.

The Ohio river shore is crowded with sightseers every day and hundreds visit the site on Sunday. All are welcome to inspect the work going on as long as they do not interfere with the working men in any way.

GOOD NEWS TO "WETS" AND "DRYS"

F. W. Jansen, manager of the Great Western Tea & Grocery Company, has just received a solid carload of the finest white, mealy, medium sized potatoes, direct from the grower in Northern, Ohio. On account of being short on floor space for so many potatoes he is going to make a great reduction to reduce the stock. Anybody who is thinking of laying in potatoes for the winter had better get busy. To the best of our knowledge potatoes will be much higher in the very near future. Everything else in the eatable line is so high potatoes are sure to be higher. For Saturday these potatoes will be sold by the sack, two bushel and a half, for $1.65, by the bushel, 60 pounds, at 69c and by the peck, 15 lbs. 19c. This price will be for Saturday only. We will take orders Saturday and deliver them any day next week to suit your convenience. See page thirteen for big grocery ad, lots of cheap prices on high grade groceries. adv

Gilgen Gets Fine Dog

Lon Gilgen is ready to affirm with considerable emphasis that he has the coming rabbit dog of Ohio. Right now said rabbit dog is nothing more nor less than a two months old English Beagle pup, which was sent to him by S. L. Huffman, of Wyoming, O., a dog fancier who has a fine kennel of registered animals. Lon declares that the pup can right now track a rabbit further and more accurately than any common hound dog in the city.
